Awareness of Trends in Technology

A Report on the Webinar
on
Perspectives of Block Chain and Its Application in Healthcare Industry

A webinar was organized jointly by *Department of Information Technology* and *Department of Computer Applications, Heritage Institute of Technology* on September 25th, 2021, 11 am. The joining link for the webinar was <https://meet.google.com/fsv-iqci-obi>.

Organizing Chairs:

Prof. Siuli Roy, Department of Information Technology, *Heritage Institute of Technology*
Professor Souvik Basu, Department of Computer Applications, Heritage Institute of Technology

Members:

All Faculty & Staff members of Department of Information Technology and Department of Computer Applications, Heritage Institute of Technology

Speaker Name & contact details:

Debabrata Datta
Professor, Heritage Institute of Technology, Kolkata
Former Nuclear Scientist & Head RP&AD
Bhabha Atomic Research Centre
Mumbai – 400085
Email: debabrata.datta@heritageit.edu

Title of the Webinar:

Perspectives of Block Chain and Its Application in Healthcare Industry

Abstract of the Webinar:

Blockchain is a distributed transaction technology that is open but secure and public but at the same time private. It is based on a unique concept an “append only” open ledger. In this open ledger, every transaction that occurs within the network is added to this ledger once authenticated by the nodes in the network. It works on three major principles, such as (1) the transaction is open on the network, (2) the ledger distributed to ensure there is always a copy of the ledger, (3) every new transaction needs to be authenticated for their addition to the chain. Consensus algorithm is one of the algorithms that is implemented in Blockchain always. Blockchain has a wide range of applications and uses in healthcare. The ledger technology facilitates the secure transfer of patient medical records, manages the medicine supply chain and helps healthcare researchers unlock genetic code. Purpose of Blockchain can be well understand using consensus algorithm. Consensus algorithm in general is framed as a decision

Heritage Institute of Technology, Kolkata *Department of Information Technology*

Seminar on Recent Trends on Digital Economy

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a one-day seminar on "Recent Trends on Digital Economy" on 20th September 2019. Dr. Abhijan Bhattacharyya, Scientist in Network Embedded Infrastructure Research Area, TCS Research, Tata Consultancy Services, Kolkata, was the honourable speaker of this seminar. His current areas of interest are network protocols for IoT, machine intelligence enabled low-latency communication, 5G communication, etc. At present he is playing a lead role in representing his organization in Internet Engineering Task Force (IETF). He has led the first ever contribution of TCS to IETF Standard in the form of "RFC 7967". He has been a fellow under the NextGen Leadership Program of Internet Society. He has also actively participated in the efforts to spread awareness on IETF in India through initiatives supported by Ministry of Electronics and IT, Govt. of India.

In this seminar, Dr. Bhattacharyya spoke on recent technology trends, 5G technology: its adaptability with pros and cons. He discussed everything elaborately with examples and analogies and thus the high-end cutting-edge technologies got lucidly explained to the listeners. The learners got hugely benefited from this seminar and a good number of queries got addressed and resolved during this session.

This venue of this seminar was Seminar Hall, A Building. Total number of participants was 72.

Seminar on Innovation

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a one day seminar on "Innovation, a Process to Manage" on 28th September 2018. *Dr. Swarup Mandal, Global Practice Head- New Technology Solution, Manufacturing and High Tech, CTO at Wipro Ltd.* was the honourable speaker of this seminar.

Dr. Mondal delivered his lecture focusing on many upcoming and presently booming technologies of IT world. His lecture revolved round the topics like Autonomous vehicles, 5G, AI/ML, Industrial IoT, Industry 4.0. He motivated the listeners to work on technologies of tomorrow which will redefine the world of Information Technology in near future. He emphasized on the process of innovation and how it is of utmost importance in the global IT industries. Dr. Mondal motivated the learners to innovate something new and thus to prosper in life as young IT professionals and IT scientists.

This venue of this seminar was Seminar Hall, A Building. Total number of participants was 79.

A Report on TECHNOVATION 2016

This 23-24 September 2016, the department of Information Technology of Heritage institute of Technology Organized TECHNOVATION 2016-Student Development Program under TEQIP II for students of the institute and the other institutes. This was a student development program wherean array of events was organized to showcase the skills of the students as well as to develop some professional skills in them. This program got a great response from different colleges across the state and the event was a great success. This student development program served as a platform for the students to hone their skills and the students were highly benefitted from the event.

The various events that were organized are as follows:-

1. Code debugging (Hands-on): It enabled the students to know about different ways of error detection .It also developed their analyzing skills and improved the ability to dry run a given problem.
2. Seminar followed by model exhibition on Robotics: The seminar primarily focused on to develop the student's skills of how to build their own manual bot of varieties of configurations.
3. Panel discussion on "Innovative Technology": It was an interactive event based on sharing innovative ideas pertaining to the field of technology. Students came up with an array of different ideas that could be of immense help in the present era upon its implementation. Mr. Soumyatanu Mukherjee, Director, Dreamstech Solutions Pvt. Ltd., and Prof. A. J. Pal, Associate Prof., Dept. of IT, HITK were the respected guests of honor in this event.
4. Critical coding on C, Java, Python, C++ (Hands-on): It developed the students' skill of implementation of various algorithms and real-life problems in different programming languages.

A Report on TECHNOVATION 2018

During this part of the year, the department of Information Technology of Heritage Institute of Technology hosts Technovation to catch a glimpse of the challenges that come across along the path of IT sectors. Technovation, a substitute for three independent notions in IT field; Technology, Science and Innovation, perfectly defines the agenda of this label. It brings together these three aspects to provide opportunities for the young developing minds to showcase their talents and skills.

This year, series of events, took place over duration of two days (28th and 29th September 2018), that comprised of

- **TCC (Technovation Coding Challenge)**, where coders compete to bring about the best in themselves.
- **Bug-out** – Debugging is a very essential aspect of the industry that requires spy skills was also imbibed in this event thereby giving budding debuggers a fantastic experience in this domain.
- **Innovation Meet** – where groups of students from different institutes presented innovative ideas which can solve daily problems of mankind through state-of-the-art aspects of computer science and information technology.
- **TSP (Technovation Smart Project)** – Provided an excellent platform for the revolutionary minds to contribute to our generation through their ingenious ideas manifested through their efforts may it be a working model, power point presentation or a website or an app.
- **Tech-quiz** – providing an interesting reason to learn about the facts and facets of technology, science, and innovation.

Mr. Anirban Mukherjee, Enterprise Architect, Wipro Technologies; Dr. Anindya Jyoti Pal, Controller of Examination, Burdwan University; and Mr. Sayantan Roy, Sr. System Engineer, IBM India judged the innovation and skills of the participants in Innovation Meet and TSP.

Technovation is an inter-institute event. This year participants were not only from Heritage Institute of Technology, but also from eminent colleges like Jadavpur University, IEST Shibpur, Techno India, IEM, B P Poddar Institute of Engineering and others.

Android and Web Development Workshop

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a hands-on workshop on Android and Web development on 23rd September 2016. Android and Web Development is highly on demand in industry. The workshop focused on the various trends and languages in the field of Android and Web development. The students came to know about the basics of HTML, CSS, and BOOTSTRAP and how to design a web page dynamically. It was a hands-on event where the participants could learn the technology and immediately could implement them.

This workshop was hosted at ICT B04 and B06. Total number of participants was 68.

Automation Workshop

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a hands-on workshop on Automation on 29th September 2018. The workshop was conducted by Mr. Sayantan Roy, Senior System Engineer, IBM India. He shared the knowledge of automation in a suitable way for the beginners and the way automation is being adapted in the industry. He elaborated the concepts of functional analysis, FTE, overview of tools, and a few case studies. Later he demonstrated a chat-bot model in the hands-on session and the participants got opportunity to implement it then and there.

This workshop was hosted at Seminar Hall A Building and ICT B01, ICT B04. Total number of participants was 102.

Data Integration Workshop

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a hands-on workshop on Data Integration on 21st September 2019. The workshop was conducted by Mr. Sayantan Roy, Senior System Engineer, IBM India. He demonstrated different aspects of data integration like

- Fundamental concepts, principles, and terminology of data integration
- Common methods of data integration with attention to techniques, timing, and integration process automation
- How to perform the essential steps of data integration including requirements definition, data capture, data transformation, and data delivery
- Modelling small case studies in hands-on session using Python.

This workshop was hosted at ICT B01. Total number of participants was 72.

Game Development Workshop

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a hands-on workshop on Game Development on 20th September 2019. Under this hands-on workshop the following things were covered –

- Introduction to Game Development.
- Physics involved in Game Development.
- Introduction to Unity.
- JavaScript for Unity.
- Controlling Characters.
- Developing a game using the above tools.
- Live demonstration and examples.

This workshop was hosted at ICT B04. Total number of participants as 44.

Workshop on Internet of Things

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a hands-on workshop on Internet of Things on 24th September 2016. This workshop revealed an overwhelming horizon of technology in form of Internet of Things. Discussion on basic concepts, usages, projected fields of IoT utilization and different case studies are done. Speakers elaborated how IoT is going to change everything. A special demonstration on a simple Smart Home project using Raspberry Pi is done which captured attention of the mass gathered to learn this new technology. In this workshop, how IoT can be used in every aspect of life and civilization, got clearly discussed with the help of case studies and applications.

This workshop was hosted at Seminar Hall – A Building. Total number of participants was 71.

UI/UX Workshop

The department of Information Technology, Heritage Institute of Technology, Kolkata organized a hands-on workshop on UI/UX development on 28th September 2018. The workshop focused on the various trends and cutting-edge techniques on the field of UI/ UX development that are essential to build good-looking and easy to use applications for web and mobile. It was a hands-on event, and the participants could implement the knowledge they gathered through the demonstration on spot. This workshop explored various stages of UI/UX processes, from design thinking till formulation and more.

This workshop was hosted at ICT B01 and B05. Total number of participants were nearly 79.

Post-Event Summary Report

Name of Event: **Software-Defined Networks for Secure Cloud Computing**

Date of Event: July 03, 2021

Number of Persons Attending: 27

Organized by: ACM Kolkata Student Chapter- HITK

Platform: Google Meet

On July 3rd, ACM, HITK organized a Tech-Talk on “**Software-Defined Networks for Secure Cloud Computing**”, mainly focused on Cloud Computing which is the on-demand delivery of computing services - including servers, storage, databases, networking, software, analytics, and intelligence - over the Global Internet enabling faster innovation, flexible resources and economies of scale. Various service models like Infrastructure as a Service (IaaS), Platform as a Service (PaaS), Software as a Service (SaaS) have become synonymous with today’s virtual world. Software-defined Networking (SDN) is a paradigm to networking in which the control plane is logically centralized and is decoupled from the data plane. The SDN Controller aggregates the network states for the applications and translates the application requirements into equivalent network policies. With the advent of cloud services, today’s Enterprises need the ability to access and monitor applications, infrastructure and various IT resources anytime and anywhere on demand. Security has been a big concern for deployment of both Public and Private Cloud services. With network architecture like SDN, we can deploy a secure cloud service by dynamic, adaptive and programmable functionalities of the underlying network elements.

The keynote speaker was **Subhendu Bhadra**, who is a Computer Scientist with 20+ years of experience in Technology, Research and Leadership roles with Fortune 100 corporations Oracle, Cisco, IBM, Intel and Motorola in Canada, India and the USA. He is passionate about academics and has collaborated with academicians and researchers in Asia, Europe and North America. He has presented research and demoed new innovations in global technology conferences. He also organized international conference as Industry Chair. He has a Bachelor of Engineering (CSE) from Jadavpur University, Kolkata, India and Master of Technology (CS) from Indian Institute of Technology, Kanpur, India. Besides he is an external researcher at Technical University of Berlin, Germany.

During the day, participants had the opportunity to learn more about “Cloud Computing”, which is basically becoming the de facto methodology for on-demand delivery of the computing services.

Post-Event Summary Report

Name of Event: **How dense are the Small-World networks?**

Date of Event: July 20, 2021

Number of Persons Attending: 29

Organized by: ACM- HITK

Platform: Google Meet

On July 20th, ACM, HITK organized a Tech-Talk on “**How dense are the Small-World networks?**”, which focused on random networks that present an interesting take on graph theory by incorporating probability within the properties of a graph. Pioneered by Paul Erdos, random networks have brandished their versatility in modeling different types of graphs. Once such model is the "Small-World" model or the Watts-Strogatz model. Small-World model was first used to simulate the underlying networks explaining various social phenomena. The aim of this talk will be to methodically understand the "Small-World" model as described by Watts-Strogatz in their seminal paper in Nature and understand whether the density of such a network can model the density of a real-world social network.

The keynote speaker was **Partha Basuchowdhuri**, who is an Assistant Professor in the School of Mathematical and Computational Sciences (SMCS) at the Indian Institute for the Cultivation of Science (IACS). His research interests include using deep learning models in NLP applications, Bio-NLP, social networks, applications of machine learning in healthcare and epidemiological models. He has recently been awarded an Indo-Sweden Joint Project of value 25L by the department of Bio-Technology (DBT) for real-time detection of ARDS using machine learning methods. He did his Bachelor's, Master's and PhD from IIST Shibpur, Louisiana State University and JU, respectively. His papers have been accepted in international venues of repute, such as PAKDD, ASONAM, CoDS-COMAD and KAIS. He has worked as an Associate Professor in the department of Computer Science and Engineering at Heritage Institute of Technology till June, 2019 before joining IACS. He also spent his post-doctoral tenure in Queen's University Belfast in 2016.

During the day, participants had the opportunity to learn more about the “Small-World” model with respect to the real world social network.

Post-Event Summary Report

Title: Agent-Human Collaboration: Frameworks & Applications

Presenter: Dr. Sandip Sen, Professor, Tandy School of Computer Science, The University of Tulsa

Date: 29th November, 2019

No of participants: 35

On November 29th, Dr. Sandip Sen visited our department and give a lecture on “Agent-Human Collaboration: Frameworks & Applications” , mainly focused on the significant recent advances in techniques for reasoning with imprecise and imperfect information, machine learning, human-computer interaction modalities, etc. presents the potential for transformative applications that leverage capabilities of autonomous agents not just as information assistants for human users, but also as facilitators and trusted collaboration partners. These are exciting and opportune times for researchers developing frameworks and mechanisms for developing autonomous agent applications that can both guide users to more satisfying decisions and choices as well as shoulders responsibilities to accomplish shared goals as peer workers. In this talk, he was highlighted some results from the MASTERS research group in the Tandy School of Computer Science at The University of Tulsa on developing both conceptual frameworks and prototype applications. Some of the projects covered include developing novel next-generation review based recommender systems, gesture-based control of unmanned vehicles, harassment detection on social media, trust development in ad-hoc human-agent teams, and emergent cooperation in a population of self-interested agents.

Brief bio of the speaker: Sandip Sen is a Professor in the Tandy School of Computer Science at The University of Tulsa, USA. His primary research interests are in the area of Intelligent Agents, Machine Learning, Evolutionary Computation, and Human-AI collaboration. He was elected to be a Senior Member of the Association for the Advancement of Artificial Intelligence, and has served on program, organizational, and editorial committees of premier AI conferences and journals. He has been included in a selective list of highly Computer Science researchers and has a current h-index of 42 and an i-10 index of 128.

During the day, participants had the opportunity to learn more about the application of human computer interaction, which is a trendy topic in Computer Science these days.

Dear All,

The **Department of ECE** along with the **IEEE Electron Devices HIT Student Branch Chapter** and **IEEE EDS Center of Excellence** is organizing a Lecture Session by Prof. Vincenzo Piuri on **Monday, 24.09.2018**.

Prof. Vincenzo Piuri is a professor of Computer Engineering at the Università degli Studi di Milano. He is **Fellow of the IEEE** and **Distinguished Scientist of ACM**.

He shall be speaking on the topic '**Ambient intelligence: convergence of artificial intelligence, machine learning, biometrics, cloud-computing, and internet-of-things**'.

Venue: SV Auditorium

Time: 9.45 am - 10.45 am

Please find attached the abstract of his talk and a brief biography.

You are cordially invited to attend the Lecture Session.

Warm regards,

Dr. Mousiki Kar,

Assistant Professor, Department of Electronics & Communication Engineering,
Heritage Institute of Technology, Kolkata.

Senior Member, IEEE,
Vice-Chair, IEEE EDS Kolkata Chapter,
Branch Counselor, IEEE ED HIT Student Branch Chapter.

3-day hands-on Autonomous Robotics Workshop 'Lord of the Tracks 2.0' during 13-15 March 2018

1 message

mousiki kar <mousiki.kar@heritageit.edu>

Tue, Mar 13, 2018 at 12:42 PM

To: heritage notice <notice@heritageit.edu>

Dear All,

A 3-day hands-on Autonomous Robotics Workshop '**Lord of the Tracks 2.0**' is being organized during 13-15 March 2018 .

Students from 2nd year ECE in teams of **4 members** will build their own robot.

There will be '1 hour 50 minute' long sessions for 3 days.

The workshop will be partially **sponsored by IEEE** and organized by the **IEEE Electron Devices HIT Student Branch Chapter** and the **Department of ECE, HITK**.

Warm Regards,

Dr. Mousiki Kar,

Assistant Professor, Department of Electronics & Communication Engineering,
Heritage Institute of Technology, Kolkata.

Senior Member, IEEE,
Vice-Chair, IEEE EDS Kolkata Chapter,
Branch Counselor, IEEE ED HIT Student Branch Chapter.

Motivated by the overwhelming response and requests from students the **IEEE Electron Devices Heritage Institute of Technology Student Branch Chapter** organized a 3-day hands-on Autonomous Robotics Workshop '**Lord of the Tracks 2.0**' during 13-15 March 2018. The workshop was proactively executed by 10 student member volunteers, Student Branch Counselor Dr. Mousiki Kar and ED HIT SBC Advisor Dr. Atanu Kundu. A total of 45 students from 2nd year B.Tech. ECE participated in the workshop hosted at the **IEEE EDS Center of Excellence, Heritage Institute of Technology, Kolkata, India.**

Participants and mentors of '**Lord of the Tracks 2.0**' held during 13-15 March 2018

Mousiki Kar <mousiki.kar@heritageit.edu>

3-day hands-on Autonomous Robotics Workshop 'Lord of the Tracks 1.0' during 20-22 February 2018

1 message

mousiki kar <mousiki.kar@heritageit.edu>

Mon, Feb 19, 2018 at 4:09 PM

To: heritage notice <notice@heritageit.edu>

Dear All,

Please find attached the details of our upcoming 3-day hands-on Autonomous Robotics Workshop '**Lord of the Tracks 1.0**' during 20-22 February 2018 (Phase I).

We intend to organize a workshop series. This will be our first event in the series. Students from 2nd year ECE in teams of **4 members** will build their own robot.

There will be '1 hour 50 minute' long sessions for 3 days.

The workshop will be partially **sponsored by IEEE** and organized by the **IEEE Electron Devices HIT Student Branch Chapter** and the **Department of ECE, HITK**.

Please refer to the attachment for details. Due to the overwhelming response from students we will have the workshop in phases. Each phase will host 10 teams (40 students).

Warm Regards,

Dr. Mousiki Kar,

Assistant Professor, Department of Electronics & Communication Engineering,
Heritage Institute of Technology, Kolkata.

Senior Member, IEEE,
Vice-Chair, IEEE EDS Kolkata Chapter,
Branch Counselor, IEEE ED HIT Student Branch Chapter.

The **IEEE Electron Devices Heritage Institute of Technology Student Branch Chapter** organized a 3-day hands-on Autonomous Robotics Workshop '**Lord of the Tracks 1.0**' during 20-22 February 2018. Ten teams comprising of 40 students from second year B.Tech. ECE participated in the workshop. The teams were mentored and guided by 10 student member volunteers, Student Branch Counselor Dr. Mousiki Kar and ED HIT SBC Advisor Dr. Atanu Kundu. The event was hosted at the **IEEE EDS Center of Excellence, Heritage Institute of Technology, Kolkata, India.**

Participants and mentors of '**Lord of the Tracks 1.0**' held during 20-22 February 2018

Dear All,

The Department of Electronics and Communication Engineering in collaboration with IEEE Electron Devices Calcutta Chapter and IEEE Electron Devices HIT Student Branch Chapter is organising IEEE EDS DISTINGUISHED LECTURE by **DR. A. K. PANDA**, at Heritage Institute of Technology.

VENUE: A-BUILDING SEMINAR HALL,
HERITAGE INSTITUTE OF TECHNOLOGY

DATE: WEDNESDAY, NOVEMBER 01, 2017

TIME: 2.15 PM – 3.45 PM

You are cordially invited to attend this program.

Please find attached an abstract of the talk and a brief biography of our speaker.

Kind Regards,
Atanu Kundu
Assistant Professor & DC, ECE Department
Chairman, IEEE EDS, Kolkata Section

DL Program on 'Prospects of GaN-based Semiconductor Devices'

Date: November 01, 2017

Now-a-days, all the electronics equipment are tiny and design/fabricated by hand is not possible. Therefore, electronics circuit are design using VLSI tools and fabricated by automation system using sophisticated equipment. These circuits called as Integrated Circuits fabrication at India is not possible commercially till now. However, India is very good in design and hence many institution, prefer to design the circuit using different VLSI tools and fabricated outside. The aim of this lecture is to inspire the students to be part of such VLSI design and practice such that the students will be able to get the job in their domain and enjoy the electronic circuits design.

Participants: 148 undergraduate student (EDS Member: 24)

Venue: Heritage Institute of Technology

Mousiki Kar <mousiki.kar@heritageit.edu>

Invitation to attend the IEEE EDS MINI COLLOQUIA (MQ) on Future of Semiconductor Electronic Devices

Dear All,

The IEEE Electron Devices HIT Student Branch Chapter in collaboration with IEEE Electron Devices Calcutta Chapter and Department of Electronics and Communication Engineering is organising IEEE EDS MQ on Future of Semiconductor Electronic Devices at Heritage Institute of Technology.

You are cordially invited to attend this program which shall be graced by the presence of the following eminent EDS Distinguished Lecturers:

Prof. Souvik Mahapatra

Professor, Dept. of EE, IIT Bombay

Fellow, IEEE

Prof. M. Jagadesh Kumar

Vice-Chancellor, Jawaharlal Nehru University

Professor, Dept. of EE, IIT Delhi

Prof. Samar Saha

President, IEEE EDS

Adjunct Faculty, Santa Clara University

Prof. Manoj Saxena

Associate Professor, University of Delhi

IEEE EDS-Region 10 SRC Vice Chair

Time: 9 - 30 Hrs.

Date: 21.07.2017

Venue: A Building Seminar Hall

Heritage Institute of Technology

Please find attached the flyer of the program and program schedule.

Kind Regards,
Atanu Kundu
Assistant Professor & DC, ECE Department
Chairman, IEEE EDS, Kolkata Section

IEEE EDS MINI COLLOQUIA (MQ) on Future of Semiconductor Electronic Devices

The IEEE Electron Devices HIT Student Branch Chapter in collaboration with IEEE Electron Devices Calcutta Chapter and Department of Electronics and Communication Engineering organized IEEE EDS MQ on “Future of Semiconductor Electronic Devices” at Heritage Institute of Technology on 21.07.2017.

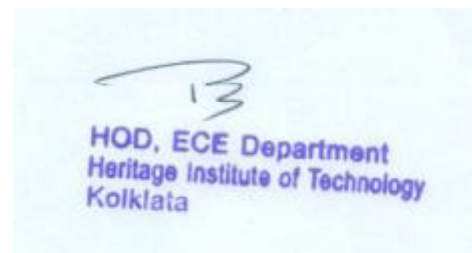

The lectures were delivered by the 4 eminent EDS Distinguished Lecturers. The first lecture was delivered by Prof. Samar Saha, President, IEEE EDS and Adjunct Faculty, Santa Clara University on “Evolution of Semiconductor Devices in Enabling Smart Environments and Integrated Ecosystems”. Followed by that lecture was by Prof. M. Jagadesh Kumar, Vice-Chancellor, Jawaharlal Nehru University and Professor, Dept. of EE, IIT Delhi on “Low Power Nanoscale MOSFETs: Innovations and Challenges”.

The next lecture was by Prof. Manoj Saxena, Associate Professor, University of Delhi, IEEE EDS-Region 10 SRC Vice Chair on “Modeling and simulation of Gate Electrode Engineered Double Gate Junctionless Transistor”. The last lecture was delivered by Prof. Souvik Mahapatra, Professor, Dept. of EE, IIT Bombay and Fellow, IEEE on “CMOS Transistors - Operation, Scaling, Reliability and Way Forward”.

92 UG students, Faculty members and research scholars were participated from the department of Electronics & Communication Engineering of Heritage Institute of Technology. The Colloquia was extremely successful and beneficial for students and faculty members of ECE departments.

Dear All,

The Department of Electronics & Communication Engineering, Heritage Institute of Technology, Kolkata is organising a Lecture Program for 3rd year E.C.E. students on April 12, 2017.

Topic : **Exposure to *VoLTE*: Voice over LTE**

Speaker: **Mr. Prasanta Kumar Mukhopadhyay**

Integrated Access Network Lead, Reliance Jio Infocomm Ltd.

Time: 15.00 – 17.00 Hrs.

Venue: A Building Seminar Hall

Heritage Institute of Technology

Kind Regards,
Atanu Kundu
Assistant Professor & DC, ECE Department
Chairman, IEEE EDS, Kolkata Section

The Department of Electronics & Communication Engineering, Heritage Institute of Technology, Kolkata in collaboration with IEEE Electron Devices Society, Kolkata, IEEE EDS HIT Student Branch Chapter and Centre for Development of Advanced Computing, Kolkata (C-DAC), is organizing a One-day Workshop on 'Embedded Systems: Innovation, Leadership and Entrepreneurship' followed by a Panel discussion on 'Digital India, Make in India & Startup India - How to optimize a pragmatic growth path' on April 06, 2017 at Heritage Institute of Technology.

You are cordially invited to attend the workshop.

Speakers:

Dr. Nabarun Bhattacharyya, Director, C-DAC, Kolkata

Mr. Alokesh Ghosh, Joint Director, C-DAC, Kolkata

Dr. Subhrangshu Sanyal, CEO, Innovation Park, IIM Calcutta

Venue: A Building Seminar Hall
Heritage Institute of Technology

Time: 14.30 Hrs.

Please find attached program schedule with this mail.

Kind Regards,
Atanu Kundu

One Day WORKSHOP on ' Embedded Systems: Innovation, Leadership and Entrepreneurship'

Attendee: 90+10(IEEE)

The Department of Electronics & Communication Engineering, Heritage Institute of Technology, Kolkata in collaboration with IEEE Electron Devices Society, Kolkata, IEEE EDS HIT Student Branch Chapter and Centre for Development of Advanced Computing, Kolkata (C-DAC), is organizing a One-day Workshop on 'Embedded Systems: Innovation, Leadership and Entrepreneurship' followed by a Panel discussion on 'Digital India, Make in India & Startup India - How to optimize a pragmatic growth path' on April 06, 2017 at Heritage Institute of Technology.

Keynote Speech by Dr. Nabarun Bhattacharyya, Director, C-DAC

Mr. Alokesh Ghosh, C-DAC

Dr. Subhrangshu Sanyal, CEO, IIM Kolkata

Panel Discussion:

Dr. Nabarun Bhattacharyya, Director, C-DAC

Prof. Rajib Bandyopadhyay, Jadavpur University

Mr. Alokesh Ghosh, C-DAC

Dr. Subhrangshu Sanyal, CEO, IIM Kolkata

Dr. Prabir Banerjee, HOD, ECE

NOTICE

The Department of Electronics & Communication Engineering, Heritage Institute of Technology, Kolkata in collaboration with IEEE Electron Devices Society, IEEE EDS HIT Student Branch Chapter and TEQIP-II, is organising a Lecture Program on March 28, 2017 at Heritage Institute of Technology.

You are cordially invited to attend this lecture session.

Kindly REGISTER at goo.gl/aPxExO.

Topic : Challenges and Advantages of MOSFETs: A Journey of 60 years

Speaker: Prof. Sanatan Chattopadhyay,

Department of Electronic Science, University of Calcutta

Time: 14 - 00 Hrs.

Venue: A Building Seminar Hall

Heritage Institute of Technology

Please find attached the short biography of the author, abstract of the talk and the banner of the program.

Kind Regards,

Atanu Kundu

Assistant Professor & DC, ECE Department

Chairman, IEEE EDS, Kolkata Section

making process where a group of people express their individual opinions to construct the decision which provides a best estimate of a process or system. Each member of the group expresses their opinion to support the decisions taken for a course of action. In simple terms, it is just a method to decide any event to occur within a group. Every one present in the group can suggest an idea, but the majority will be in favour of the one that helps them the most. Others have to deal with this decision whether they liked it or not. Byzantine Fault Tolerance (BFT), a problem of Byzantine General, is a system with a particular event of failure. Many times, there can be malfunctioning consensus systems. These components are responsible for the further conflicting information. Consensus systems can only work successfully if all the elements work in harmony. However, if even one of the components in this system malfunctions the whole system could break down. These Blockchain consensus models are just the way to reach an agreement. However, there can't be any decentralized system without common consensus algorithms. It won't even matter whether the nodes trust each other or not. They will have to go by certain principles and reach a collective agreement. In order to do that, it is required to check out all the Consensus algorithms. It can be stated that versatility of blockchain networks is due to consensus algorithms. However, blockchain consensus algorithm may have pros and cons which can always alter the perfection of the algorithm. The talk will explore Consensus Algorithm in detail and the perspectives of Blockchain technology in Healthcare Industry will be presented.

Keywords: Blockchain, Consensus Algorithm (CA), BFT, Open ledger, Peer-to-Peer network

Flyer for the Webinar

The flyer is for a webinar titled "Perspectives of Block Chain and Its Application in Healthcare Industry". It features a portrait of Prof. (Dr.) Debabrata Datta, a man with glasses wearing a yellow shirt. The text on the flyer includes the date and time "Saturday, September 25th, 2021, 11 am", the title "Join us at the webinar on Perspectives of Block Chain and Its Application in Healthcare Industry", the speaker's name "Prof. (Dr.) Debabrata Datta", his title "Professor, Department of Information Technology, Heritage Institute of Technology, Kolkata", and his previous role "Former Nuclear Scientist & Head RP&AD, Bhabha Atomic Research Centre, Mumbai". It also provides a joining link: "https://meet.google.com/fsy-lac-obi" and mentions it is organized by the "Department of Information Technology and Department of Computer Applications". There is a logo in the top left corner with the number 20 and the text "Celebrating 20 years".

REC Debabrata Datta is presenting

Introduction

"To understand the power of blockchain systems, and the things they can do, it is important to distinguish between three things that are commonly muddled up, namely the bitcoin currency, the specific blockchain that underpins it and the idea of blockchains in general."

Report: Workshop on Mathematical Methods for Machine Learning (MMML-2021), organized by the Department of Mathematics, Heritage Institute of Technology, in association with ORSI, Kolkata Chapter, in online mode (Google meet), on September 20-24, 2021.

The Department of Mathematics, Heritage Institute of Technology, in association with ORSI, Kolkata Chapter, organized a 5-day workshop on Mathematical Methods for Machine Learning (MMML-2021) on September 20-24, 2021 in online mode (Google meet), in which the mathematical concepts that are at the foundations of the techniques and algorithms used in machine learning were discussed. The number of participants in the workshop was 40, which was kept low in order to facilitate effective interaction during the workshop. The backgrounds and levels of participants were heterogeneous where the levels are ranging from 1st year students to Assistant Professors in various universities to research scholars even in foreign universities and the background varies among Mathematics, Physics, Chemistry, Civil Engineering, Computer Science, Electronics Engineering and Pharmaceutical Engineering.

The inaugural session, held on September 20, 2021, was graced by the presence of Prof. Basab Choudhuri, Principal, HITK, Prof. R. N. Mukherjee, Prof. Debabrata Datta and Prof. Subhashis Majumder. They addressed the gathering and thereby set the stage for the proceedings of the workshop.

The four distinguished speakers of the workshop were:

- (i) Prof. Samarjit Kar, Professor, Department of Mathematics, NIT Durgapur and Secretary, ORSI, Kolkata Chapter.
- (ii) Dr. Sandip Chatterjee, Associate Professor and Head, Department of Mathematics, Heritage Institute of Technology, Kolkata.
- (iii) Dr. Dipankar Chakraborty, Assistant Professor and DC, Department of Mathematics, Heritage Institute of Technology, Kolkata.
- (iv) Dr. Sk. Arif Ahmed, Assistant Professor in the School of Computer Science and Engineering, XIM University, Bhubaneswar.

Dr. Souvik Ghosh compered the proceedings of the workshop.

On September 20, 2021, after the inaugural session, Prof. Samarjit Kar delivered a lecture entitled '*A Basic Introduction to Machine Learning and Data Science*', in which the fundamentals of the subject were discussed. In the second session, Dr. Sandip Chatterjee delivered a lecture entitled '*Basics of Linear Algebra: Matrix Transformations, Eigenvectors*,

Diagonalisation, Orthogonalisation and Gram-Schmidt Process', in which the algebraic background of the subject was discussed in detail.

The probabilistic features of the subject were discussed by **Dr. Dipankar Chakraborty** in a talk entitled '***Review of Probability Theory and Random Variables***', in the first session on September 21, 2021. In the second session, **Dr. Sandip Chatterjee** continued the discussion of algebra in his lecture entitled '***Matrix Factorisation: QR factorisation, Solving Linear Least-square Problems using QR factorisation and Singular Value Decomposition(SVD)***'.

In the first session of September 22, 2021, **Dr. Dipankar Chakraborty** continued the discussion of probability in a lecture whose title was '***Joint Probability Distribution and Regression***'. The title of **Prof. Samarjit Kar's** talk in the second session was '***Optimization Methods for Machine Learning and Data Science***'.

On September 23, 2021, **Dr. Sk. Arif Ahmed** delivered a lecture entitled '***Machine Learning and Deep Learning using Python***' in the first session, and **Dr. Dipankar Chakraborty** discussed the statistical aspects of the subject in the talk '***Regression Analysis***' in the second session.

On September 24, 2021, **Dr. Sk. Arif Ahmed** delivered the second part of his lecture on '***Machine learning and deep learning using Python***'. The title of the lecture delivered by **Dr. Sandip Chatterjee** in the second and final session was '***Convexity and the Gradient Descent Algorithm***'. At the conclusion **Dr. Sandip Chatterjee** gave the vote of thanks, thus bringing the workshop to an end.

(Dr. Sandip Chatterjee) 6/14/10/21

Speaker: Prof. Sushmita Mitra

Topic: From Learning To Deep Learning

Attendees: 36

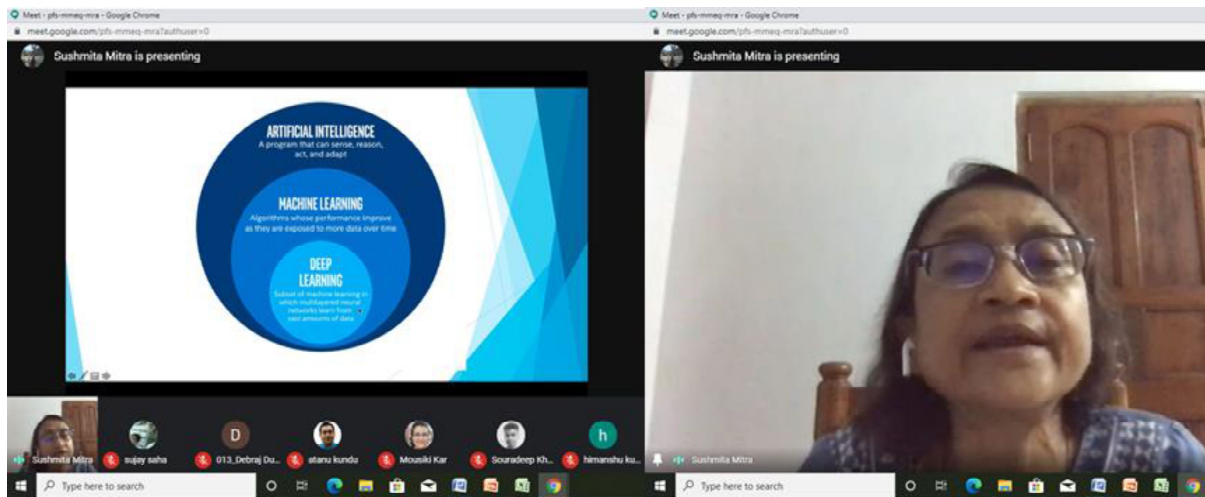

Venue: Online

Organizing Institute: IEEE ED HITK SBC, Heritage Institute of Technology

The Department of Electronics & Communication Engineering, Heritage Institute of Technology in collaboration with IEEE Electron Devices HIT Student Branch Chapter, IEEE EDS Center of Excellence and IEEE EDS Kolkata Chapter organized a Lecture Program (Webinar) on October 10, 2020.

It was an honour to have Prof. Sushmita Mitra, Fellow IEEE and INAE Chair Professor and Fulbright-Nehru Senior Researcher, Machine Intelligence Unit (MIU), Indian Statistical Institute, Kolkata. She delivered a lecture on the topic 'From Learning To Deep Learning'.

The lecture was held on the GOOGLE MEET platform at 6 p.m. on Saturday, October 10, 2020.

Kolkata

The IEEE EDS Center of Excellence at Heritage Institute of Technology, believes in 'Education for Empowerment'. The May to July quarter was dedicated to 'The joy of learning' by bringing together academicians, researcher scholars, industry personnel, undergraduate and post graduate students from more than 38 organizations across India. A series of stimulating Distinguished Lectures were organized by the Center of Excellence. Distinguished speakers from across the globe made this webinar series extremely successful.

We started the series with a Distinguished Lecture by Prof. Subramanian S. Iyer, Distinguished Professor and Charles P. Reames Endowed Chair in the Electrical Engineering Department at the University of California at Los Angeles. He delivered a talk on 'Flexible Hybrid Electronics 2.0' on April 17, Saturday, 7.30 pm (IST).

UCLA Samueli School of Engineering | IEEE Distinguished lecture Lecture April 17th 2021. | **CHIPS**

Participants: You, atanu kundu, Subramanian Iyer

DL Prof. Subramanian S. Iyer, being greeted by Dr. Atanu Kundu, Chapter Advisor ED HITK SBC and Dr. Mousiki Kar, Co-ordinator IEEE EDS CoE, HITK and Chair, EDS Kolkata Chapter

He spoke about the significant impact that Flexible Hybrid Electronics (FHE) is making in the area of medical and wellness electronics. 89 enthusiastic participants took part actively in the lecture session. The event was organized in association with, ED Heritage Institute of Technology Student Branch Chapter and IEEE Kolkata Section.

13
 HOD, ECE Department
 Heritage Institute of Technology
 Kolkata

Our next speaker was Prof. Navakanta Bhat, Professor, Indian Institute of Science, Bangalore and Chairperson, Centre for Nano Science and Engineering, IISc on April 20, Tuesday at 3.00 pm (IST).

DL Prof. Navakanta Bhat, being greeted by Dr. Atanu Kundu, Chapter Advisor ED HITK SBC and Dr. Mousiki Kar, Co-ordinator IEEE EDS CoE, HITK and Chair, EDS Kolkata Chapter

He spoke on the topic 'Sensor Scaling for Intelligent and Smart Electronics'. Prof. Bhat discussed a holistic approach to manage the diversity and scaling issues of sensor blocks, akin to what was done in digital, analog and mixed signal electronics. The possibility of constructing an Electronic Nose on a Chip, with massively parallel sensor array architecture, compute and storage engines, possibly realized using heterogeneous technologies was highlighted. The opportunities of integrating a variety of nanomaterials on Silicon platform, such as core-shell nanostructure, 2D materials and their hybrids were also discussed. The session was attended and enjoyed by 50 participants. The event was organized in association with, IEEE EDS Kolkata Chapter and ED Heritage Institute of Technology Student Branch Chapter.

Dear All,

It is a pleasure to inform you that the department of Civil Engineering is organising a webinar on '**Water Treatment: An Overview**' in association with School Of Water Resource Engineering, **Jadavpur University**.

You are cordially invited to attend this webinar.

Our guest speaker at this session is **Dr. Asis Mazumder, Director, School of Water Resources Engineering**, will be sharing his knowledge on various aspects of water treatment.

**Date: 25-11-2020****Time: From 2pm****Registration Link-**

<https://docs.google.com/forms/d/e/1FAIpQLSczo8pHCXv2LgJiLaUXk03v4XrEL5WRoh8e2zZnfdtwpacUsA/viewform?vc=0&c=0&w=1&flr=0>

The webinar will be held on the **Google Meet** platform.
The speaker's biography is attached herewith.

Thanks and regards

Prof. (Dr.) Tapas Sadhu,
Prof. & Head,
Department of Civil Engineering, HIT-K

The Department of Electronics & Communication Engineering, Heritage Institute of Technology in collaboration with IEEE Electron Devices HIT Student Branch Chapter, IEEE EDS Center of Excellence and IEEE EDS Kolkata Chapter organized a Distinguished Lecture Program (Webinar) on **August 09, 2020**.

It was our proud privilege to have **Prof. Samar Saha**, 2016-2017 President of IEEE Electron Devices Society (EDS) and currently, serving as the Sr. past President of the Society. as the speaker. Prof. Samar Saha, is an **IEEE EDS Distinguished Lecturer**, Chief Scientist at Prospicient Devices and an Adjunct Professor in the Electrical Engineering (EE) department, Santa Clara University, USA. He delivered a lecture on '**Physics of Microelectronic Device Models for VLSI Circuit Design**'.

The lecture was held on the GOOGLE MEET platform and was attended by **92 participants from 29 Institutions** from across the world.

Device Model Formulation: Basic Steps

- Core model for $I-V$ and $C-V$ characteristics:
 - Long channel device;
 - No geometry effects;
 - No physical effects.
- Include models for real device effects:
 - Geometry dependence – short and narrow channel;
 - Physical phenomena.
- Add models for real external effects on transistor.

The diagram illustrates the components of a device model, centered around the Core Model ($I-V$ and $C-V$). Surrounding the core are various effects: Active and Passive Parasitic Elements, Non-Quasi-static Effects, Substrate, RC-Network, Structural Effects, Self-heating, Temperature Effects, Layout Effects, RF Effects, Leakage Currents, Process Variability, Resistances, Series, Physical Effects, Geometry Effects, and High-Field Effects. Layer Thickness is also indicated.

The Department of Electronics & Communication Engineering, Heritage Institute of Technology in collaboration with IEEE Electron Devices HIT Student Branch Chapter, IEEE EDS Center of Excellence and IEEE EDS Kolkata Chapter organized a Distinguished Lecture Program (Webinar) on **July 26, 2020**.

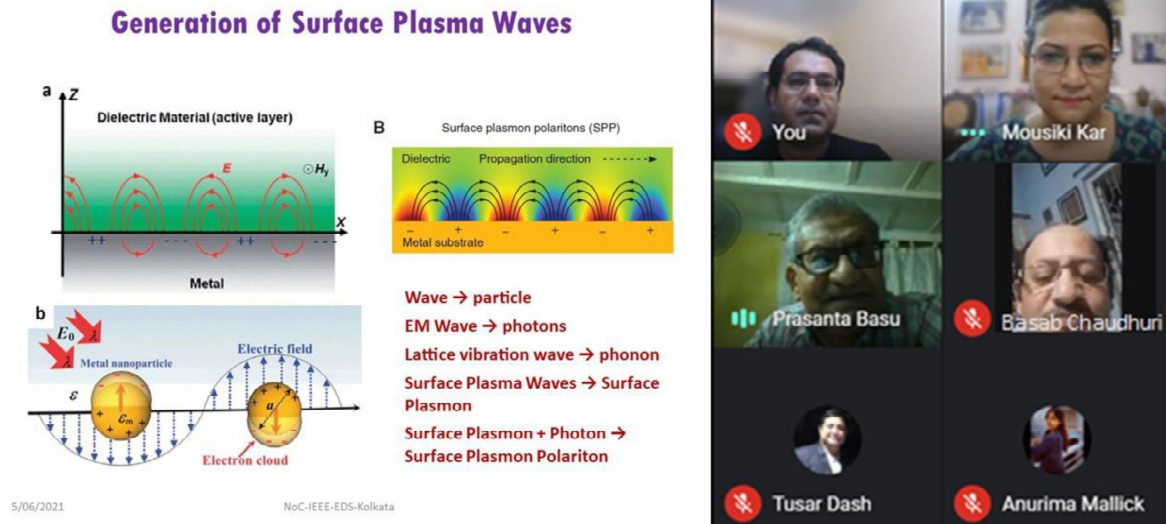

We had **Dr. Meyya Meyyappan, Chief Scientist, NASA Ames Research Center**, as our speaker. Dr. Meyyappan is an **IEEE EDS Distinguished Lecturer** and **President of IEEE EDS**. He delivered a lecture on '**Printed and Flexible Electronics**'.

The lecture was held on the WEBEX platform and was attended by **88 participants from 24 Institutions** from across the globe.

Kolkata

Following this a lecture was delivered by Prof. Prasanta Kumar Basu, Ex-Professor, Institute of Radio Physics and Electronics, University of Calcutta on June 05, 2021 at 7 p.m. IST. The topic of the webinar was ‘Network-on-Chip: A Journey from Electronic to Electronic-Photonic to Future Plasmonic Systems’.

Prof. Prasanta Kumar Basu delivering his lecture

Prof. Prasanta Kumar Basu, discussed how plasmonics, in particular surface plasmonics, allow realization of sub wavelength sized devices and therefore seems to be the ultimate solutions for network-on-chip (NOC). The very small propagation length of plasmonic waves can be overcome by Surface Plasmon Amplification by Stimulated Emission of Radiation (SPASER) replacing nanolasers used in communication and networking. The talk was attended by 97 participants.

The Month of June was graced by a Distinguished lecture by Prof. Ioannis (John) Kymissis, Professor of Electrical Engineering in the Department of Electrical Engineering at Columbia University, New York, USA. He spoke on the topic 'Electronics on Anything: How Thin Film Electronics can Instrument the World' on June 19, 2021 at 7 p.m. IST.

DL Prof. Ioannis (John) Kymissis delivering his lecture

In his lecture Prof. Kymissis discussed how his group has been working on the hybrid integration of organic semiconductors, thin film piezoelectrics, and laser-recrystallized materials with active substrates to implement a range of new functionalities. Devices they have developed include large area and miniature microphones, pressure sensors, active matrix flexible electrostrictive actuators, miniature spectrometers, and active matrix micro-LED displays. These approaches unlock new applications in healthcare, sensing, displays, soft and highly instrumented robotics, transportation, and communications.

The lecture was enjoyed by 50 attendees. The event was organized in association with IEEE EDS Kolkata Chapter.

The month of May started off with a lecture delivered by Prof. Kaushik Roy from Purdue University on May 01, Saturday, 7.30 pm (IST). He spoke on the topic, 'Re-Thinking Computing with Neuro-Inspired Learning: Devices, Circuits, and Systems'.

DL Prof. Kaushik Roy, being greeted by Dr. Susmita Mitra, Chair, Kolkata Section, Dr. Atanu Kundu, Chapter Advisor ED HITK SBC and Dr. Mousiki Kar, Co-ordinator IEEE EDS CoE, HITK and Chair, EDS Kolkata Chapter

He described his recent work on neuromorphic computing with spike based learning and the design of underlying hardware that can lead to quantum improvements in energy efficiency with good accuracy. The lecture was attended by 95 participants. The event was organized in association with, ED Heritage Institute of Technology Student Branch Chapter and IEEE Kolkata Section.

The second lecture in the month of May was delivered by Prof. Jesús A. del Alamo, Professor at Massachusetts Institute of Technology (MIT) and Director of the Microsystems Technology Laboratories. Prof. Alamo, spoke on the topic '3D Integration: Above and Beyond Moore's Law' on May 08, 2021, Saturday, at 7 p.m. IST.

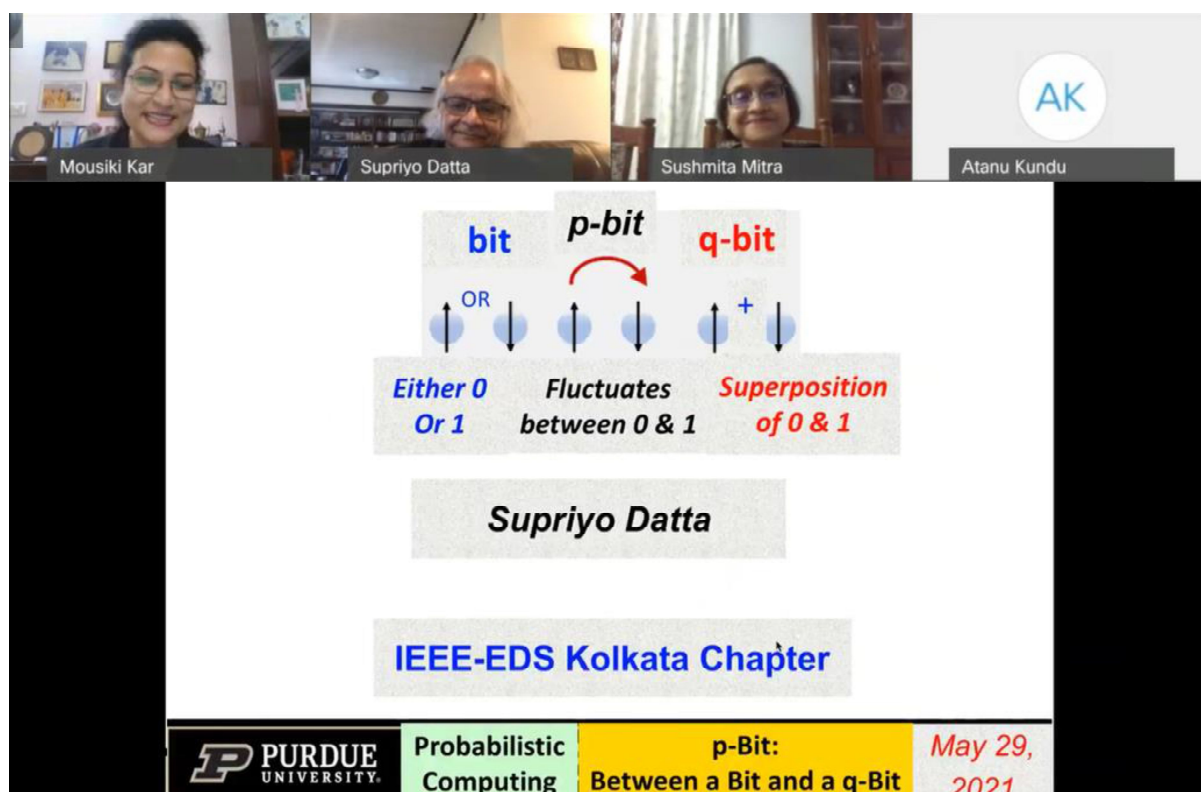

DL Prof. Jesús A. del Alamo delivering his lecture

Three-dimensional (3D) integration which is an emerging technology that can form highly integrated systems by vertically stacking and connecting various materials, technologies and functional components together was discussed. The potential benefits of 3D integration can vary depending on approach; they include multifunctionality, increased performance, reduced power, small form factor, reduced packaging, increased yield and reliability, flexible heterogeneous integration and reduced overall costs.

80 attendees from across the country enjoyed his lucid and informative presentation. The event was organized in association with, IEEE EDS Kolkata Chapter.

We wound up the month of May with a Distinguished lecture delivered by Prof. Supriyo Datta from Purdue University on the topic ‘Computing with p-Bits: Between a Bit and a q-Bit’ on May 29, Saturday, 7.30 pm (IST).

DL Prof. Supriyo Datta, being greeted by Dr. Susmita Mitra, Chair, Kolkata Section and Dr. Mousiki Kar, Co-ordinator IEEE EDS CoE, HITK and Chair, EDS Kolkata Chapter

He discussed that the awesome power of quantum computing comes from exploiting negative probabilities, which in turn requires stringent experimental conditions to protect the phase. Prof. Supriyo Datta explained that a probabilistic computer by contrast can be built with existing technology to operate at room temperature and has been demonstrated experimentally.

179 participants attended the talk which was organized in association with IEEE Kolkata Section, IEEE EDS Kolkata Chapter and ED Heritage Institute of Technology Student Branch Chapter.

Design Work done by Arnab Chatterjee, 2016 batch Graduate of Mechanical Engg, HITK

Brief Description:

Arnab graduated in Mechanical Engineering from HITK in the year 2016. After graduation he became a freelance Mechanical Engineering designer. Some of the companies he worked with, which are spread all over the world, include Corruven, MEEE Services, Asimov Universe to name a few. His passion also guided him to participate in a global design competition held by United States Marine Corps (USMC) for Modular Logistic Vehicle and Adaptive Disaster Aid Robot.

In May of 2018 his design HAT 2.0 was selected by USMC as the best design for their Modular Logistic Vehicle challenge among many designs from all over the world.

In July of 2018 his design of ADAR (Adaptive Disaster Aid Robot) was selected by USMC as the best design among many designs from all over the world.

Both the designs were then sold to USMC and Local Motors for further development. In October 2018, the proof of concept of HAT 2.0 was revealed at Marines Corps Base Camp at Pendleton, California. Armed with these feathers in his cap, Arnab has now started his own design and prototyping studio Arnstek Studios.

Arnab delivered an invited lecture on Award winning Design of 'Hybrid Adaptive Transport 2.0 (HAT 2.0)', 'Adaptive Disaster Aid Robot (ADAR)' and 'Connecting Rod Support' in HIT ME department on 25.10.2019.

An invited talk was delivered by Dr. Nabarun Bhattacharyya, Senior Director & Centre Head, Centre for Development of Advanced Computing (C-DAC), Kolkata, on 08.02.2019. The talk was organized by the Department of ECE, the IEEE ED HIT Student Branch Chapter and the IEEE EDS Center of Excellence. Our speaker delighted the listeners with the current scenario of 'Sensors for Agriculture and Environment' and the possible R&D in this field.

Group photo with participants after Lecture Session by Dr. Nabarun Bhattacharyya, Senior Director & Centre Head, Centre for Development of Advanced Computing (C-DAC), Kolkata on 08.02.2019

An invited talk was delivered by Prof. Sujit Biswas is from the Department of Electrical Engineering, Jadavpur University, Kolkata, on 08.02.2019. He is the past Chairman of the IEEE Kolkata Section. The talk was organized by the Department of ECE, the IEEE ED HIT Student Branch Chapter and the IEEE EDS Center of Excellence. A very insightful delivery on the topic ' Practical Problems in High Frequency Applications of Passive Components in Electronics 'was very well received by the participants.

Group photo with participants after Lecture Session by Prof. Sujit Biswas on 12.02.2019

We had the proud privilege to have Arijit Majumder, Scientist, Society for Applied Microwave Electronics Engineering and Research (SAMEER), Ministry of Electronics and Information Technology, Government of India, as our invited speaker on 20.02.2019. The talk was organized by the Department of ECE, the IEEE ED HIT Student Branch Chapter and the IEEE EDS Center of Excellence. The lecture on ' GaN HEMT - The Holy Grail for Power Amplifier Designers ' was riveting and enriched each and every participant's knowledge base.

Group photo with participants after Lecture Session by Arijit Majumder, Scientist, Society for Applied Microwave Electronics Engineering and Research (SAMEER) on 20.02.2019

BRIEF REPORT
ON
"STUDENTS PROGRAMME ON FOUNDRY TECHNOLOGY"

(Held on 27th March 2019, at HITK)

The Department of Mechanical Engineering, Heritage Institute of Technology, Kolkata jointly organized a "Students' Programme on Foundry Technology" at HIT campus on 27th March 2019 in collaboration with " **Indian Institute of Foundrymen**", Kolkata Chapter.

The event was organized keeping in view of sharpening the knowledge by the Students on Foundry Technology, its technological advances in the modern era and also to create an in-built awareness among those towards a professional attitude in the segment of Indian Foundry & Foundry support Industries, as a career in the future days to come.

The participants were mostly from 3rd Year B.Tech (Mechanical Engineering) students and they were divided into two groups viz., (i) the participants of 12 students comprising 6 groups, 2 students in each group for the **Presentation** on various topics on "Modern Foundry Technology" & (ii) the other group having 18 students comprising 6 groups, 3 students in each group for the **Quiz Contest**, covering the area entirely on "Manufacturing Processes" constituting the topics on Casting, Forming & Welding.

On behalf of IIF, Kolkata Chapter eight dignitaries took part as delegates for the event and the Faculty Members of HITK, namely Prof.(Dr.) Sukanta Sarkar, Prof.(Dr.) Amal Kumar Ray & Prof. (Dr.) Arup Jyoti Bhowal took an active part as vital roles and initiated as an instrumental for organizing such an excellent event.

Besides the presence of other Faculty and Staff members of the Mech.Engg. Department, the programme ended well with a note on grand success having the full-house participation by the rest of the 3rd Year and a part of the 4th Year B.Tech (ME) students as audience.

The Students showed keen interest as they were truly motivated, highly enthusiastic and in the process like a race on a competitive drive towards winning the prizes for the group as "Best Speaker" & to become the "Topper" in the group for the Quiz Contest for the each group member.

12/07/2021

The Gift awarding session was conducted by the Chairman of IIF, Kolkata chapter in line with the above for the Best Speaker & the Topper in the Quiz.

The organizing committee of IIF also considered as a token consolation gift to each member of the students participated.

The Certificates for the participants however could not be handed over to the students on the day of the event due to some printing error on the Certificates. The error has been rectified now and the Certificates are being awarded to each member of the participative students by the 1st week of April 2019 by the Departmental Head of Mech.Engg. Department.

Speaker: Prof. Durga Mishra

Topic: Nanoelectronics to Nanotechnology: More Moore and More than Moore

Attendees: 140

Venue: S.V. Auditorium. Heritage Institute of Technology

Organizing Institute: IEEE ED HITK SBC, Heritage Institute of Technology

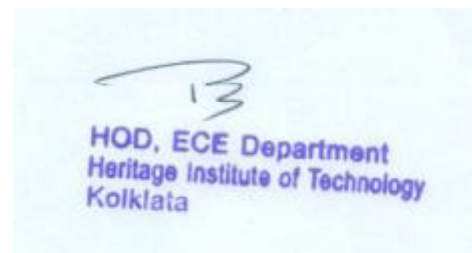

A Distinguished Lecture Program was organized by the IEEE ED Heritage Institute of Technology SBC on January 14, 2020 with Dr. Durga Mishra from New Jersey Institute of Technology, Newark as the speaker. His lecture topic was 'Nanoelectronics to Nanotechnology: More Moore and More than Moore'. His candid and in depth account of the evolution of nanotechnology was extremely enjoyed by all the attendees. The lecture session was attended by 140 participants.

13
HOD, ECE Department
Heritage Institute of Technology
Kolkata

The next lecture was by Prof. Manoj Saxena, Associate Professor, University of Delhi, IEEE EDS-Region 10 SRC Vice Chair on “Modeling and simulation of Gate Electrode Engineered Double Gate Junctionless Transistor”. The last lecture was delivered by Prof. Souvik Mahapatra, Professor, Dept. of EE, IIT Bombay and Fellow, IEEE on “CMOS Transistors - Operation, Scaling, Reliability and Way Forward”.

92 UG students, Faculty members and research scholars were participated from the department of Electronics & Communication Engineering of Heritage Institute of Technology. The Colloquia was extremely successful and beneficial for students and faculty members of ECE departments.

13
HOD, ECE Department
Heritage Institute of Technology
Kolkata

Motivated by the overwhelming response and requests from students the **IEEE Electron Devices Heritage Institute of Technology Student Branch Chapter** organized a 3-day hands-on Autonomous Robotics Workshop '**Lord of the Tracks 2.0**' during 13-15 March 2018. The workshop was proactively executed by 10 student member volunteers, Student Branch Counselor Dr. Mousiki Kar and ED HIT SBC Advisor Dr. Atanu Kundu. A total of 45 students from 2nd year B.Tech. ECE participated in the workshop hosted at the **IEEE EDS Center of Excellence, Heritage Institute of Technology, Kolkata, India.**

Participants and mentors of '**Lord of the Tracks 2.0**' held during 13-15 March 2018

A Lecture Program was organized on November 05, 2019 at Heritage Institute of Technology. In the first session we had the proud privilege to have with us IEEE EDS Distinguished Lecturer Prof. Subir Kumar Sarkar, Professor, Department of ETCE, Jadavpur University who delivered a lecture on 'Transient Electronics: a Brief Study of the Materials and Devices' His lecture was relevant in terms of current evolving technology as well as global environmental wellbeing .

Prof. Subir Kumar Sarkar, Professor, Department of ETCE, Jadavpur University delivering his Lecture

In the second session, Dr. Binit Syamal, Research Scientist at Nanyang Technological University, Singapore delivered a talk on ' How semiconductor Foundry works'. His meticulously prepared representation of a complicated process was very informative and gave the students an insight into how the real world devices come to life. The sessions were attended by 20 participants.

Group photo with participants after Lecture Session on 05.11.2019

Report on

SEMINAR ON "CONSERVATION OF PETROLEUM PRODUCTS"

A seminar was organized jointly by Mechanical and Chemical Engg. Department on 13th February 2020 at Mechanical Engineering Department Seminar Hall.

The Theme of the seminar was "Conservation of Petroleum products" under the aegis of "SAKSHAM 2020", an initiative of Ministry of Petroleum & Natural Gas. The speakers were Mr. Subir K. Somadder, Deputy General Manager – I&C Region. of BPCL and his team members. Mr. Somadder was introduced to the attendees by his team member.

Mr. Somadder gave a short talk on the profile of HPCL and how it evolved from a private company to a giant PSU through mergers and acquisitions. HPCL is now a Maharatna company because of its consistent turnover and profit over a certain level set by Govt. of India. Mr. Somadder talked about the refining capacity of its existing refineries at Mumbai and Visakh and upcoming refineries at Bhatinda and Mangalore. He also elaborated on the competition and various challenges of Oil Company. He briefly elaborated on the recruitment process followed by HPCL for fresh engineering graduates. After the talk he asked all the attendees to read a pledge on conservation of petroleum products.

Mr Somadder's team member then gave a talk on driving habits that would result in less usage of petrol. That was followed by a question answer session in which students as well as faculty members actively participated. The seminar was attended by about **80 students** from Mechanical and Chemical Engineering department and about **20 faculty members**.

The seminar ended with a vote of thanks from Dr. Sukanta Sarkar, HOD, ME Department.

Special Talk on MECHANICAL ENGINEERING by Prof. Shuvra Das (on July 29, 2019)

Department of Mechanical Engineering, Heritage Institute of Technology, Kolkata organized a "Special talk on Mechanical Engineering" by Prof. (Dr.) Shuvra Das, Professor of Mechanical Engineering, director of international program, University of DETROIT MERCY at 12.25 pm on 29th July 2019 in Swami Vivekananda Auditorium, HITK.

266 number students from mechanical engineering department and few number staff & faculty member from our department were participated the session. Dr. Das discussed in detailed various aspect of mechanical engineering and latest trends in mechanical engineering. He specially shared his practical experiences earned from various institute and industry. He shared different research activities. Mainly he emphasized modern research on Electric Vehicle design. Lot of students participated question answer sessions and our students gathered huge information regarding research facilities and higher education opportunities.

Prof. Das mentioned that following online courses are offering University of Detroit Mercy in graduate level certificate program in Advanced Electric Vehicles. This is a 15 credit (5 course) certificate program that was originally created in partnership with Ford Motor Company and many current engineers from the Detroit Automotive Companies have gone through it. The structure of the program is as follows:

For the certificate:

There are three required courses:

- 1) Introduction to Advanced Electric Vehicles
- 2) Energy Storage and Battery Technologies
- 3) Controls of Advanced Electric Vehicles

Two electives out of the following four courses:

- 4) Electromechanical energy conversion and electric drives
- 5) Power Electronics
- 6) Systems Architecture for Electric Vehicles
- 7) Systems Engineering for Electric Vehicles

All these courses will be offered on-line, although about 2-3 per semester. One does not need to take all the classes and can get separate credits for successful completion of each class and perhaps separate acknowledgement for individual classes (say a badge or something similar, to be determined).

This link from their webpage gives information about the program:

<https://eng-sci.udmercy.edu/academics/engineering/aev.php>

And this link gives information about their tuition structure:

<https://www.udmercy.edu/admission/financial-aid/cost/index.php>.

A Lecture Program was organized on September 24, 2019 with Dr. Avik Bhattacharya from IIT Roorkee as the speaker. He spoke about 'Solid State Transformer'. He delivered an in depth account of the emerging technology of SST that has the advantages of low volume, low weight and fault isolation. The lecture session was attended by 28 students.

Photographs of the Lecture Session by Dr. Avik Bhattacharya, on 24.09.2019

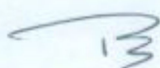

Report on Student Workshop, 2017

The Department of Electronics and Communication Engineering (ECE) is organizing a "Circuit Making Workshop" for the B.Tech 3rd Year Students since 2006.

As a part of this workshop, various challenging circuits were given to the students. They were instructed to design these circuits first using simulator tools. Subsequently, they fabricated these circuits. The annual "Circuit Making Workshop" for the ECE third-year students took place on 27th March 2017. Almost all the 3rd year students took part in this workshop. Students spent the entire day in the laboratories making these circuits followed by testing and final demonstration.

This year Prof. Abhishek Das coordinated the "Circuit Making Workshop". Moreover, all the departmental Faculties and Technical Assistants were involved in the smooth functioning of this workshop, and every year they are helping the department to conduct the workshop very successfully.

This kind of workshop gives the students the chance to explore their talent beyond classroom activity and they get exposure to real design and testing.

HOD, ECE Department
Heritage Institute of Technology
Kolkata

Circuit Making Workshop 2017

Summary of Student Workshop, 2018

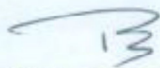

The Department of Electronics and Communication Engineering (ECE) conducted the annual workshop - "Circuit Making Workshop" for the ECE 4th year Students between 30th July and 3rd August 2018.

As a part of this workshop, various interesting and challenging topics were first selected by a team of teachers in consultation with the TAs of the department. Their feasibility was studied in terms of a few parameters. The important parameters were the availability of the components in the laboratories, the approximate time to be taken for the completion of the total job-fabrication, testing, fault finding. Then the topics for the circuits were given to the students. They used the available infrastructure of the laboratory to make and test the circuits.

This workshop is also considered to be part of Extra Classroom Activities. Hence ECE 4th year students also got the chance to earn 30 points by participating in this workshop. Almost all the final year students took part in this workshop. Students showed great interest and enthusiasm to design and complete the circuits from the component level.

This year Prof. Shounak Dasgupta coordinated the Workshop. A large number of teachers and TAs assisted him to make it a success. Without the participation of most members, such an activity is difficult to conduct and our department succeeded because of the participation factor.

This kind of workshop gives the students the chance to cement their theoretical ideas and acquire practical skill, so essential for an engineer.

HOD, ECE Department
Heritage Institute of Technology
Kolkata

Circuit Making Workshop 2018

Report on Student Workshop, 2019

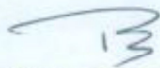

The Department of Electronics and Communication Engineering (ECE) organized the annual design workshop, popularly known as "Hardware & Software Workshops" for ECE 3rd year Students between 22nd and 26th July 2019.

This year the workshop was carried out in two distinct areas- hardware and software. As a part of this workshop, various circuits/designs with interesting applications were given to the students. One of the key features of the problems, selected by a team of faculty members, was that those are not part of any laboratory curriculum. The simulator software used was open-source software and for the hardware workshop, the available infrastructure of the laboratory was used to fabricate the circuits.

This workshop is also considered to be part of Extra Classroom Activities. As a result, the ECE 3rd year students also got the chance to earn $30+30=60$ points by participating in this workshop. Almost all the 3rd year students participated in this workshop with great enthusiasm. Students spent the entire day making these circuits/designing the virtual circuits and with a keen sense of competition.

This year Prof. Rajib Ranjan Pal coordinated the Hardware Workshop and Prof. Susovan Mandal coordinated the Software Workshop. Such a big activity requires involvement of all the team members of the department. In our case also, the whole ECE team contributed to the success of the exercise.

This kind of workshop gives the students the chance to explore their talent beyond classroom activity and also helps them to acquire some ideas about fabrication and trouble-shooting.

HOD, ECE Department
Heritage Institute of Technology
Kolkata

Hardware & Software Workshops 2019

Summary of workshop, 2020

The Department of Electronics and Communication Engineering (ECE) organized the annual workshop entitled "Circuit making Workshop" for the ECE 3rd year and 2nd year students between 5th and 11th February 2020. This year the workshop was carried out in two distinct domains - hardware and software.

As projects of the workshop, various challenging circuits were given to the students. Hardware-based problems were given to the 3rd year students. The 2nd year students were assigned software-based design problems. Students have used open-source software and the available infrastructure of the laboratory to make these circuits or solve the problems using the simulators.

This workshop is also considered to be part of Extra Classroom Activities. Hence ECE 3rd year and 2nd year students also got the chance to earn 30 points by participating in this workshop. Almost all the 3rd year and 2nd year students took part in this workshop. Students were very enthusiastic about their circuits and designs. They worked tirelessly for the entire day trying to achieve their objectives.

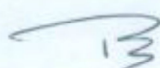

This year Prof. Rajib Ranjan Pal coordinated the Hardware Workshop and Prof. Susovan Mandal coordinated the Software Workshop. In addition to this, the entire team of dedicated departmental faculty members and Technical Assistants worked hard to ensure the success of the workshops.

This activity has become a part of our academic calendar. This kind of workshop gives the students the chance to cement at least some of their theoretical knowledge through practical application. They have the freedom to design and try ideas beyond curriculum. It helps them to develop into better engineers.

Heritage Institute of Technology
Kolkata

In continuation of the Lord of the Tracks Robotics Workshop Series, the third workshop of the series, Lord of the tracks 3.0 was held on 09.02.2019. This autonomous robot design workshop had 24 participants. The participants were guided by IEEE EDS Student Volunteers. The workshop was organized by the IEEE ED HIT Student Branch Chapter and the IEEE EDS Center of Excellence.

Student Volunteers and participants in the event Lord of the Tracks 3.0 on 09.02.2019

The IEEE EDS Center of Excellence, HITK organized a 2-DAY Autonomous Robotics Workshop for the students of The Heritage School. It was attended by 14 students who were assisted by 7 IEEE student volunteers. In this workshop, the students learnt about robotics using a "hands-on" approach. The goal was to encourage them to consider Electrical and Electronics Engineering as a career and mostly understand that technology can be exciting. The Center was visited by Dr. M. K. Radhakrishnan, Vice President, IEEE Electron Device Society (Regions and Chapters) on September, 3, 2019. He interacted with the students of the branch chapter as well as some beneficiaries of the Center.

Lecture Session by Prof. Prof. Sanatan Chattopadhyay

Attendee: 96+10(IEEE)

The Department of Electronics & Communication Engineering, Heritage Institute of Technology hosted a Lecture Program by *Prof. Sanatan Chattopadhyay*, Professor, Calcutta University. The event was organized in collaboration with IEEE EDS, Kolkata Chapter, Finishing School, TEQIP II and IEEE EDS HITK SBC. He delivered a lecture on 'Challenges and Advantages of MOSFETs: A Journey of 60 years' on 28th March 2017. The talk was attended and nicely received by over 82 attendees which included second, third and final year ECE students and faculty members from various universities.

Talk by Prof. Siben Dasgupta, Professor, Wentworth College, USA1 message

prabir banerjee <prabir.banerjee@heritageit.edu>

Tue, Mar 7, 2017 at 12:13 PM

To: Hit ECE Faculties <hit_ece_faculties@googlegroups.com>, heritage notice <notice@heritageit.edu>

Prof. Dasgupta will give a talk on 'Digital Controls' on 09.03.2017.

It will be presented in ICT507 at 11 AM.

Thanks,

Prabir Banerjee

Head, ECE Department

Lecture Session by Prof. Siben Dasgupta

The Department of Electronics & Communication Engineering, Heritage Institute of Technology hosted a Lecture Program by Prof. Siben Dasgupta, Professor, Wentworth College, USA. The event was organized in collaboration with IEEE EDS, Kolkata Chapter and IEEE EDS HITK SBC. He delivered a lecture on 'Digital Controls' on 9th March 2017. The talk was attended and nicely received by over 46 attendees (IEEE Member: 8) which included third and final year ECE students and faculty members from various universities.

Mousiki Kar <mousiki.kar@heritageit.edu>

IEEE EDS Distinguished Lecturer by Chief Scientist from NASA

mousiki kar <mousiki.kar@heritageit.edu>

Tue, Nov 29, 2016 at 2:05 PM

To: heritage notice <notice@heritageit.edu>

Dear All,

The Department of Electronics & Communication Engineering, Heritage Institute of Technology in collaboration with IEEE Electron Devices Society, IEEE Solid-State Circuits Society and IEEE Kolkata Section, is organizing a Distinguished Lecture Program on January 06, 2017 at Heritage Institute of Technology.

We have the proud privilege to have **Chief Scientist from NASA, Ames Research Center, Dr. Meyya Meyyappan** as the speaker. Dr. Meyyappan is an **IEEE EDS Distinguished Lecturer**. He will deliver a lecture on **'Nanomaterials in Nano electronics and Optoelectronics'**.

The lecture will be held at **A-Building Seminar hall at 4 pm on Friday, January 06, 2017**. Registration is FREE. You are cordially invited to attend this lecture session.

Kindly REGISTER at <https://goo.gl/FI9zuu> by DECEMBER 24, 2016. The abstract of the talk, speaker's biography and the event flyer are attached herewith.

Warm regards,

Dr. Mousiki Kar

Asst. Professor, Department of Electronics & Communication Engineering,
Executive Committee Member, IEEE EDS Kolkata,
Head, Finishing School,
Nodal Officer, Equity Assurance Committee, TEQIP II,
Heritage Institute of Technology, Kolkata.

To: heritage notice <notice@heritageit.edu>

You are cordially invited to participate in the lecture on "*Applications of Electronics in Agriculture and Environmental Studies*" by Dr. Bijay Kumar Behera, Principal Scientist, (ICAR) Indian Council of Agricultural Research-Central Inland Fisheries Research Institute, Barrackpore, Kolkata. The lecture is jointly organized by the Department of E.C.E. and IEEE EDS, Heritage Institute of Technology Student Chapter. The program is sponsored by TEQIP-II to be held at the A Building Seminar Hall, Heritage Institute of Technology on August 17, 2016 at 3.15 p.m.

Looking forward for your kind participation.

Kind Regards,

Atanu Kundu

Assistant Professor & DC, ECE Department

Chairman, IEEE EDS, Kolkata Section
