Dear Sayak,

This letter is to record your internship at our company from June 12th, through August 4th, 2023. As an intern at Caravel Labs, you were instrumental in the design and development of a web app for an ed-tech non-profit that develops custom library software for kids in primary school with a lack of proper educators in the underserved community schools of China & India.

Working with a team of peer interns, you helped build the solution using NextJS framework, TypeScript, Azure Cosmos DB, Azure Blob Storage. The solution serves as a prototype for the modernization, transformation & enhancement of the legacy library software that is deployed in over 500 schools across China.

In addition to learning the use of the technologies above, as part of the internship you learned the use of Agile development techniques, DevOps concepts and the use of Azure DevOps for self-managing your work.

Your professionalism and your positive and cheerful attitude helped the team morale, and we enjoyed your presence on the team.

We wish you the best of luck and success in your career and look forward to hearing from you in the future.

Thanks,
