Subject: Internship Completion Certificate

I am writing to certify that Mr. Abir Rakshit has successfully completed his internship at GoMind Wellness, where he worked on frontend web development from 10th July 2023 to 10th September 2023.

During his internship, Abir demonstrated exceptional skills and dedication to his work. He played a pivotal role in the development of our web interface, exhibiting a deep understanding of frontend technologies and a keen eye for design. Abir's proficiency in HTML, CSS, and JavaScript, coupled with his ability to work with frameworks like React, significantly contributed to the user-friendly and aesthetically pleasing aspects of our platform.

Abir showed great initiative and creativity in problem-solving, often going above and beyond to ensure the highest quality of work. He collaborated effectively with our team, actively participating in discussions and demonstrating strong communication skills. His contributions were instrumental in meeting project deadlines and achieving our development goals.

Furthermore, Abir displayed a high level of adaptability and a proactive approach to learning. He quickly assimilate new concepts and technologies, showcasing a strong desire for continuous improvement. His positive attitude and willingness to take on challenges made him a valuable member of our team.
It is with great confidence that I recommend Abir Rakshit for future opportunities in frontend web development. His technical proficiency, combined with his passion for creating exceptional user experiences, make him a valuable asset to any organization.

We are grateful for Abir's contributions during his internship and are confident that he will excel in his future endeavors. We trust that the skills and experience gained at GoMind Wellness will serve as a solid foundation for his professional journey.

Should you require any further information, please do not hesitate to contact me.

Sincerely,
Akash Agrawal

Dear Debarpan,

This letter is to record your internship at our company from June 12th, through August 4th, 2023. As an intern at Caravel Labs, you were instrumental in the design and development of a web app for an ed-tech non-profit that develops custom library software for kids in primary school with a lack of proper educators in the underserved community schools of China & India.

Working with a team of peer interns, you helped build the solution using NextJS framework, TypeScript, Azure Cosmos DB, Azure Blob Storage. The solution serves as a prototype for the modernization, transformation & enhancement of the legacy library software that is deployed in over 500 schools across China.

In addition to learning the use of the technologies above, as part of the internship you learned the use of Agile development techniques, DevOps concepts and the use of Azure DevOps for self-managing your work.

Your professionalism and your positive and cheerful attitude helped the team morale, and we enjoyed your presence on the team.

We wish you the best of luck and success in your career and look forward to hearing from you in the future.

Thanks,

## LETTER OF RECOMMENDATION

LNBID : IN23PM8839460928

It is with great pleasure and pride that I am writing a letter of recommendation to **KUNAL KRISHNA** as his/her manager and mentor at Learn and Build, Jaipur, I have known him professionally and personally for **30 Days** and hence, I have had the time to analyze, guide, and encourage his/her abilities.

In my observation, he/she has the ability to complete the tasks assigned to him/her with minimum guidance, making him intellectually independent. At the same time, he/she shows the rare and essential character to be a team person and work closely with his/her colleagues in achieving the set goals.

He/She is a very caring person and can be assigned to handle critical situations. As a member of his/her team, he/she guides his team to test both positive and negative scenarios to ensure that the new changes do not affect the production system. Along with this he/she also works on promotion, new implementation, and management- functions which are usually handled by experienced members.

**KUNAL KRISHNA** is a creative person with a passion for technology and management. I would like to highlight his/her work in an Data science with AI-ML intern position, where he/she proved his/her ability as an effective employee by helping co-workers with knowledge transitions, thereby increasing company revenue.

I have found him/her to be a reliable, hardworking, and dedicated member of my team. Therefore, I strongly recommend his/her application to your esteemed university, which will help them to improve his/her knowledge and make his/her dreams come true.

Letter of Recommendation for Subhranil Raha

To Whom It Concern,

I am delighted to recommend Subhranil Raha, who has demonstrated exceptional skills and dedication in the “Improvements in HLF-Connector, Hardening the Production Readiness Aspects” mentee project for the months of June to November.

His work throughout the project showcases a deep understanding of complex technologies and a commitment to advancing our objectives. Subhranil began his journey by effectively establishing a rapport with mentors and defining the project scope. He quickly grasped Hyperledger Fabric's key concepts, architecture, operations, and Kafka's implementation, laying a solid foundation for his subsequent contributions.

His proficiency in Fabric Java SDK/Gateway Client API and practical knowledge in Docker, Kubernetes, and Azure were evident as he progressed. Subhranil demonstrated his technical skills by deploying a Fabric network to a Kubernetes cluster and mastering GitHub Actions to create CICD pipelines.

One of Subhranil's notable achievements was successfully setting up a Fabric network with multiple nodes and running integration tests. He showed great initiative in identifying and addressing additional features and test cases that enhanced the project's scope and depth.

Subhranil's ability to run the connector locally, update user documentation, and implement an API to list all the chaincode in a Fabric network following the chaincode lifecycle was particularly impressive. His work significantly contributed to the project's usability and functionality.

During the latter stages, he excelled in understanding and implementing unit and integration tests. His creation of Transaction IT for chaincode operations and Private Data Collection was a testament to his technical capabilities

Subhranil's final accomplishment involved understanding and implementing the chaincode endorsement policy using the Hyperledger Fabric Java SDK. This work demonstrated his ability to handle complex aspects of blockchain technology and his commitment to enhancing the project’s overall quality.

In summary, Subhranil's journey through the mentee project has been marked by continuous learning, technical excellence, and a dedication to quality. I am confident that he will be a valuable asset to any team or project, and I wholeheartedly recommend him for any role he aspires to pursue.

Please feel free to contact me for further information or discussion.

# Mastering Modern Web Development: Leveraging

HTML, CSS, Bootstrap, DBMS, PHP, JS, and React

# Introduction

This presentation will cover the essentials of **modern web development** including HTML, CSS, Bootstrap, DBMS, PHP, JS, and React. We will explore how to create **dynamic and engaging websites** using these technologies.

# Understanding HTML

HTML is the **foundation** of web development, providing the structure for web pages. It defines the **content** and **layout** of the page, allowing for seamless integration with other technologies.

# Styling with CSS

CSS is essential for **styling** web pages, allowing for **customization** of the look and feel. It enables **responsive design** and enhances the **user experience**.

# Utilizing Bootstrap

Bootstrap provides a **framework** for responsive and mobile-first front-end development. It offers a wide range of **pre-built components** and **styles**, accelerating the development process.

# Managing Data with DBMS

**Database management systems** (DBMS) are crucial for **storing** and **retrieving data**. They provide a structured approach to **managing information** for web applications.

# Empowering with PHP

PHP is a powerful **server-side scripting language** that enables **dynamic content** generation. It facilitates **interaction with databases** and supports **advanced web applications**.

# Enabling Interactivity with JS

JavaScript is essential for **adding interactivity** to web pages. It enables **dynamic behavior** and **real-time updates**, enhancing the overall **user engagement**.

# Enhancing with React

React is a popular JavaScript library known for its component-based architecture, which allows for modular and reusable UI components. It offers tools and features for creating dynamic and responsive web applications. React's user-friendly API makes it suitable for both beginners and experienced developers. Its active community and extensive ecosystem make it a top choice for building cutting-edge web applications.

# Pg life

Welcome to PGlife, your one-stop solution for student housing management!

# Conclusion

Mastering modern web development is essential for creating **dynamic and engaging websites**. By leveraging HTML, CSS, Bootstrap, DBMS, PHP, JS, and React, developers can build **innovative and interactive** web experiences.

# Thanks!

Dear Himon,

This letter is to record your internship at our company from June 12th, through August 4th, 2023. As an intern at Caravel Labs, you were instrumental in the design and development of a web app for an ed-tech non-profit that develops custom library software for kids in primary school with a lack of proper educators in the underserved community schools of China & India.

Working with a team of peer interns, you helped build the solution using NextJS framework, TypeScript, Azure Cosmos DB, Azure Blob Storage. The solution serves as a prototype for the modernization, transformation & enhancement of the legacy library software that is deployed in over 500 schools across China.

In addition to learning the use of the technologies above, as part of the internship you learned the use of Agile development techniques, DevOps concepts and the use of Azure DevOps for self-managing your work.

Your professionalism and your positive and cheerful attitude helped the team morale, and we enjoyed your presence on the team.

We wish you the best of luck and success in your career and look forward to hearing from you in the future.

Thanks,

Hello Fauzan,

It truly has been a pleasure working with you for more than 1 year now. We're happy to see your growth as a developer sharpening your skills at Resolve.

We are pleased to extend your internship period w.e.f **01st September, 2023** with a raise of **INR 5000/-** on your current Stipend**,** hence your monthly stipend is revised to **INR 30,000/- effective from Sep'23**. The end date of the internship will extend till **29th February, 2024**.

***Please Note: This is NOT a new separate internship. This is an extension of the current internship and as such, all policies, procedures, and agreements from the initial offer apply going forward with the extension. The extension offer simply changes the end date of the internship from 31st August, 2023 to 29th February, 2024.***

Feel free to reach us in case of any queries.

Thank you.

**ACKNOWLEDGEMENT AND AGREEMENT**

I hereby acknowledge and agree to the terms of this Grant Letter.

Agnish Ghosh
_____
Name: Agnish Ghosh
Title: Ethereum Protocol Fellow
Date: 02/10/2023

**Addendum**
**General Terms and Conditions**

## A. Use of Funds

You must:
(i) provide written acknowledgement of receipt of Grant funds;
(ii) use the Grant funds only as specified during the grant application process;
(iii) refrain from use of the Grant funds for any purpose prohibited by law;
(iv) keep a record of all receipts and expenditures relating to the Grant; and
(v) repay any portion of the Grant funds not used for purposes specified during the grant application process..

## B. Reports

Following the end of the period during which you are to use all Grant funds, you must promptly provide EF with a written report summarizing the project. EF may also require interim reports. Your reports should describe your progress in achieving the purposes of the Grant and include a detailed accounting of the uses or expenditure of all Grant funds.

## C. Information and Access

You agree to permit EF and its representatives, at its request, to have reasonable access to your files, records, accounts, personnel and clients or other beneficiaries for the purpose of making such financial audits, verifications or program evaluations as EF deems necessary or appropriate concerning this Grant. You also agree to provide any other information reasonably requested by EF.
