Online Education

1. Does all programs/courses were completed on time.	Yes

Principal
Heritage Institute of Technology

2. Measures taken to complete the syllabus of courses and programs.	Since inception, Heritage Institute of Technology has promoted the usage of ICT enabled tools in the teaching learning process, as suggested in NEP as well. As a result, most of the classrooms are ICT enabled with overhead projectors and wi-fi connectivity. All the computer laboratories are equipped with 1:1 student to computer ratio while working, with computers having state-of-the-art configuration and LAN connectivity. While conducting a class, faculty members switch between projections and chalk-and-talk, as and when necessary, as all the classrooms are enabled with dual facilities. An adequate number of computers with internet connectivity is available at the Central Library as well where students can access digital contents, e.g., IEEE Journals, NPTEL Courses, eBooks, Question Papers of previous years etc. During the pandemic from March, 2020, in order to minimize the academic loss of the students, faculty members adopted 'Education in Emergency' and started conducting online classes. Both students and faculty members have responded promptly in getting accustomed with the transition of andragogy from traditional face-to-face teaching-learning process to online teaching-learning process. Faculty members conducted thorough research to prepare instructional design suitable for online mode of teaching by reading articles and watching tutorials in various online platforms, attending webinars and discussing among peer groups. Google Meet and Google Classroom is being used by all the faculty members as LMS and to apply the flipped classroom strategy. Faculty members are uploading various learning resources such as articles, pre-recorded videos, YouTube links, assignments etc. on the respective Google Classroom on a regular basis and students are also responding to those very well. Various online tools are also being used by some of the faculty members to make online classes more engaging. Once thought impossible to conduct virtually for some cases, all the laboratory classes are also being conducted online. In many cases different open source simulation software are being used for conducting laboratory classes online. For laboratory classes where no such software is available, Institute has created facilities for recording videos, having proper resolution and acoustics, of the experiments that have been done by the faculty members in laboratories. Links to those videos are also provided to the students so that they can complete the laboratory assignments comfortably. The Institute has adopted Choice Based Credit System (CBCS) in all the undergraduate programs and encourages students to enroll in courses from MOOCs platforms as recommended by the AICTE. The Institute is also registered as a SWAYAM-NPTEL Local Chapter. During the last couple of years, students of the Institute have enrolled in more than 4000 various online courses, internships and training programmes offered by the leading universities, institutes and organizations of the world such as Stanford University, John Hopkins University, University of California (Irvine, San Diego), Yale University, Imperial College London, University of Michigan, Duke University, DeepLearning.AI, Google, Microsoft, NPTEL etc. through various online platforms such as NPTEL, Coursera, Udemy, Internshala, Linkedin Learning etc.
3. The period of delay in completion of syllabus (in months).	0
4. The period of delay in conducting exams (in months).	0
