ENTREPRENEURSHIP

Chandana Chandra has the story of some college students from Calcutta who used the lockdown as an opportunity to launch start-ups

In 2020, a lot of brick and mortar educational institutions closed down. One man's poison is another man's food. One of the fallouts of this was the increasing dominance of big educational technology or edtech companies and the emergence of new firms in the realm of online education.

But most of these companies cater to students preparing for various competitive exams for medical and engineering entrance, none for undergraduate (UG) college students in the so-called "general line"—such as commerce, science, arts, law, computer applications and business administration.

"We started CollegeSala.com with the aim of providing quality education to students of these streams ignored by big edtech companies," says Upamanyu Chatterjee, chief executive of CollegeSala. The start-up operates as a platform wherein students can purchase "curated chapter-based notes" created by university professors. "Recently we have also come up with interactive virtual classes by professors for UG courses as well as placement training sessions," he adds.

EARLY BIRDS: (Clockwise from above) Teams CollegeSala.com, Simha and Raveen

is pursuing BCom at Seth Anandram Jaipuria College, Calcutta. All of them had tried their hands at building multiple start-ups before they finally launched CollegeSala.

Many start-ups are mentored by Freeflow, an incubator and accelerator for new ventures by students. Says Anubh Husain, co-founder of Freeflow, "We help create ventures. Once you come up with an idea for a start-up, we help build a team, arrange the seed investment and guide you."

According to him, a start-up is a fruit of strong team work and Freeflow encourages the team to be heterogeneous. "However, it's more important for a student to be skill-oriented, than possessing a degree," says Anubh.

Simha, a health technology start-up, was co-founded by Thirankar Chakrabarti, Niranika Pal and Jyotirprakash Mukherjee. Both Thirankar and Niranika completed their B.Tech—in applied electronics and instrumentation engineering, respectively—in the RCO Institute of Information Technology, Calcutta, in 2021. Jyotirprakash is an MBA in sports management and data analysis from Ivy Professional School, Pune.

The start-up was inspired by a problem faced by Thirankar when his father was down with dengue in 2015. "Finding appropriate medicines quickly was the biggest hassle," he says. "To solve the problem, we decided to launch a mobile phone-based application system that helps deliver medicines at the doorstep within a few minutes, all through the day," he says.

During the second wave of Covid-19, they helped families find oxygen cylinders too. Now they are focusing on spreading their services to smaller cities and towns of West Bengal.

Freeflow is another student start-up that focuses on managing waste and recycling trash to produce eco-friendly alternatives in the form of flower vases, lamp shades and bookshelves. The start-up was co-founded by two young entrepreneurs—Sheikh Momin Ali, currently pursuing B.Tech in computer science at Meghnad Saha Institute of

Technology, Calcutta, and Sharique Khan, who has recently graduated in business administration from The Heritage Academy. Says Sharique, "We also offer services such as waste management for business organisations and residential complexes, organise events that produce minimum waste and eco-friendly makeovers of homes and offices."

Most of these student entrepreneurs have been planning to start their ventures for the past two years. The pandemic just helped them firm up their resolve and go ahead with confidence. Says Thirankar, "Since 2015, we researched, planned and built a team. Initially, we didn't let our parents or family members know anything. When they got to know they opposed our decision, thinking we were going to ruin our career. And even though we didn't ask for any proprietary support." Eventually, though, they were able to convince the family members.

According to Anubh, this is a stiff challenge for students because most parents don't want their children to plunge into a seemingly insecure future. This is all the more true be-

cause most of these students have forsaken the lure of steady jobs in information technology companies. He says, "I'd always tell students entrepreneurs: once you sell your idea to your mother and win her support, you can sell it to anybody."

Freeflow is another student start-up that focuses on managing waste and recycling trash to produce eco-friendly alternatives in the form of flower vases, lamp shades and bookshelves. The start-up was co-founded by two young entrepreneurs—Sheikh Momin Ali, currently pursuing B.Tech in computer science at Meghnad Saha Institute of

Technology, Calcutta, and Sharique Khan, who has recently graduated in business administration from The Heritage Academy. Says Sharique, "We also offer services such as waste management for business organisations and residential complexes, organise events that produce minimum waste and eco-friendly makeovers of homes and offices."

YOUR VOICE

Rich people should pay more taxes

NO Suppression of income

Only the people earning beyond a certain amount have to pay taxes as per the laws in India. Those people have a fairly good standard of living. Therefore, discrimination on the basis of income is not necessary. In a country that is riddled with scams and corruption, fixing higher taxes for wealthier people might lead to them stashing money in overseas accounts and hiding their income.

Indrani Saha,
Third year, Jagannath Gupta Institute of Medical Sciences, Calcutta

Hard-earned

Not all rich people have inherited their father's property or business. Many have become rich by dint of their own hard work, dedication and talent. It would be unfair if they have to pay more taxes from their hard-earned money.

Agnikho Ganguly,
Fourth year, Techno Main, Salt Lake, Calcutta

They do pay more

No, I disagree. In keeping with the current progressive taxation system, rich people are already paying higher taxes. Burdening them more with even higher taxes would be a punishment for their hard work and success. If the government wants to increase tax revenue, it should focus on widening tax bases, simplifying indirect tax and ease in filing taxes. The solution lies in administrative reforms.

Rishabh Sharma,
Final year, Dees Ahilya Vishwavidyalaya, Indore, Madhya Pradesh

Fair play

Rules should be the same for everyone, rich or poor. Many animals suffer during winter but Nature does not change her rules. On a similar logic, the rich should not be made to pay higher taxes for whatever they have

earned through their hard work.

Sinon Mukherjee,
Class X, Kalra Hindu Girls' High School, Kolkata

YES Tax luxuries

I agree to a certain extent only. The rich can certainly pay more taxes and contribute to the betterment of the nation. Taxes are not meant to exploit one's hard-earned money. Rather, they benefit the country's economy and make it grow stronger. The middle and lower income people have to spend a greater proportion of their income on essentials than the "richer class". Hence, the latter save a lot more and can invest in other ventures, such as entertainment. So, if higher taxes are imposed on utilities that only the rich can afford, then it will benefit the economy with more money coming into the system.

Shamayla Chatterjee,
Class X, Asha Hall Girls' Higher Secondary School, Calcutta

The richest agree

If the rich don't pay more taxes, the wealth gap between the rich and poor will get bigger. In an article I read Bill Gates and Warren Buffett, two of the richest people, agreed that the rich should be taxed more. If the richest agree, why not? The money can go towards educational funds and help boost the poor.

Saheli Ghosh,
First year, Ramkrishna Sarada Mission Vivekananda Vidyalaya, Calcutta

Only on inheritance

In rough times, the government needs to consider how to bring more money into circulation. Raising taxes on the wealthy could be a good strategy. However, higher taxes should not pertain to those who worked hard to earn it but on those who have inherited wealth.

Mehak Bagaria,
Class XII, DPS, Megacity, Calcutta

সস্তায় নামজাদা শিক্ষকদের নোটস, পথ দেখাচ্ছেন ত্রয়ী

সোমনাথ মণ্ডল

পড়াশোনা করতে গিয়ে পড়ে পড়ে হোট্ট খেয়েছিলেন ওরা। প্রতিযোগিতার দুনিয়ায় বুকে গিয়েছিলেন, টাকা না থাকলে নামী কলেজ-বিশ্ববিদ্যালয়ের শিক্ষক-অধ্যাপকদের মূল্যবান নোট পাওয়া খুবই কষ্টকর। বিশেষ করে যারা প্রত্যন্ত গ্রামগঞ্জে থাকেন, তাদের কাছে এ সব তো আকাশের চাঁদ পাওয়ারই সমান।

তা হলে উপায়? তথ্যগ্রহণের যুগে এর কি কোনও সমাধান নেই? কিছুই কি করা যায় না পিছিয়ে পড়াশোনার জন্য? যেমন ভাবনা, তেমন কাজ তিন বছর। ওঁরাই এখন পথ দেখাচ্ছেন পিছিয়ে পড়া পড়ুয়াদের। কতই বা ওঁদের বয়স। সবে একুশ কী বাইশ হয়েছে। এতো কম বয়সেই পড়ুয়াদের জন্য অভিনব ওয়েবসাইট তৈরি করে ফেলেছেন ত্রয়ী। এক ক্লিকেই যেন মুশকিল আসান। ওয়েবসাইটে ঢুকলে নামী শিক্ষক-অধ্যাপকদের নোটস হাতের মুঠোয়। খরচও খুবই সামান্য। এক চ্যাপ্টার (২০ পাতা পর্যন্ত) নোট মাত্র ২০ টাকা।

এই ত্রয়ী হলেন সৌরদীপ চক্রবর্তী, উপমন্যু চট্টোপাধ্যায় এবং মহম্মদ ফজল মুস্তাফা। কলকাতার শেঠ আনন্দরাম জয়পুরিয়া কলেজের বিকম বিভাগের স্নাতকসত্তর পড়াশোনা করেন সৌরদীপ। বাকি দুই পড়ুয়া উপমন্যু এবং ফজল কলকাতার হেরিটেজ ইনস্টিটিউট অফ টেকনোলজি কলেজের প্রযুক্তিবিদ্যার তৃতীয় বর্ষের ছাত্র।

গত বছরের মে মাসে লকডাউনের সময়ে তাঁরা তৈরি করেন 'কলেজশালা' নামে একটি ওয়েবসাইট (www.collegeshala.com)। করোনাকালে তাঁরা বুকেছিলেন, এ লড়াই আরও কঠিন হবে। কোভিডের কারণে নাসারির খুঁদে থেকে কলেজ পড়ুয়া, প্রত্যেককেই অনলাইন ক্লাস করতে হচ্ছে। তার জন্য প্রয়োজন একটি দামী ফোন এবং ইন্টারনেট সংযোগ। গ্রামগঞ্জে আর্থিক ভাবে পিছিয়ে পড়া পড়ুয়ারা কোথায় পাবেন এত টাকা? তাই ওঁদের জন্য কিছু একটা করার তাগিদ আরও বেড়ে যায় তিন বছর। সৌরদীপ বলেন, 'প্রযুক্তিবিদ্যার মতো বেশ কিছু বিভাগের পড়াশোনার

তিন মুষ্টি (বা নিক থেকে) মহম্মদ ফজল মুস্তাফা, উপমন্যু চট্টোপাধ্যায়, সৌরদীপ চক্রবর্তী

জনা কোম্পিউটার রকমারি অ্যাপ-ওয়েবসাইট থাকলেও, স্নাতকসত্তরের বাণিজ্য, আইন, ব্যবসা বা কলাবিভাগের জন্য ভালো কিছু ছিল না। অল্প খরচে কিছু করার ইচ্ছে ছিলই। সে জন্য এমন ওয়েবসাইটের চিন্তাভাবনা।

কী ভাবে উপকৃত হবেন পড়ুয়ারা? ওয়েবসাইট গিয়ে নিজের প্রয়োজন অনুযায়ী স্নাতক কোর্সের (বিকম, বিবিএ, বিএসসি, বিএ, এলএলবি) যে কোনও চ্যাপ্টারের নাম লিখে সার্চ করলেই পড়ুয়ারা পাবেন বিশ্ববিদ্যালয়ের অভিজ্ঞ অধ্যাপকদের তৈরি নোটস। এই সঙ্কটপণ্ডিত অনলাইন মাধ্যমে টাকা দিয়ে কিনে যখন ইচ্ছে ব্যবহার করতে পারবেন। কেনার আগে কিছুটা পড়ে যাচাই করে নেওয়ার সুযোগও থাকছে। উপমন্যুদের বক্তব্য, 'সিলেবাস-ভিত্তিক নোটস তৈরি করা হয়েছে। যাতে পরীক্ষার সময়ে সমস্যা পড়তে না হয়। সঠিক নোটস পরখ করার জন্য রয়েছেন কন্সল্ট মডারেশন টিমও। অধ্যাপকদের নিবন্ধন করা হয়েছে তাঁদের যোগ্যতা এবং অভিজ্ঞতার ভিত্তিতে।'

এই বিপুল কর্মকাণ্ডে শিক্ষক-অধ্যাপকদের ভূমিকা অত্যন্ত গুরুত্বপূর্ণ। প্রথমে পরিচিত শিক্ষকদের কাছ থেকেই নোটগুলি নিতেন সৌরদীপরা। পরে তাঁরা দেশের বিভিন্ন প্রান্তের প্রফেসরদের কাছে এ বিষয়ে সাহায্য চান। এই মুহূর্তে বাংলা, ওড়িশা এবং

ঝাড়খণ্ড মিলিয়ে প্রায় সাড়ে পাঁচশো শিক্ষক এবং অধ্যাপক ওয়েবসাইটের জন্য নোটস তৈরি করে দিচ্ছেন। সাধামতো তাঁদের সাম্প্রতিকও দিচ্ছেন ত্রয়ী। প্রতি ২০ চ্যাপ্টার (সর্বোচ্চ ২০০ পাতা) নোটসের জন্য পাঁচ হাজার টাকা দেওয়া হয়। তা ছাড়াও ওই নোটস ক'জন ব্যবহার করলেন, সেই সংখ্যার নিরিখে ৬০ শতাংশ রয়্যালটি দেওয়া হয়। অবশ্য অনেক শিক্ষক বিনামূল্যেও নোট সেন পড়ুয়াদের জন্য।

ত্রয়ীর এই উদ্যোগকে কী ভাবে দেখছেন শিক্ষক-অধ্যাপকেরা?

কলকাতার সেন্ট জেভিয়ার্স কলেজের অধ্যাপিকা মৈত্রেয়ী বসু বলেন, 'অত্যন্ত ভালো উদ্যোগ। একজন শিক্ষার্থীকে শেখার এবং বোঝার ক্ষেত্রে খুবই সাহায্য করবে এই নোটগুলি।' এ বিষয়ে শেঠ আনন্দরাম জয়পুরিয়া কলেজের অধ্যাপক জয়েন্দ্র সিং বলেন, 'গ্রামীণ বাংলার স্নাতকসত্তরের প্রায় লাখখানেক পড়ুয়ার কাছে এই ধরনের পরিষেবা পৌঁছে দিতে সক্ষম হয়েছেন তিন পড়ুয়া। এই কাজ এর আগে কখনও হয়নি।' ত্রয়ীর এই উদ্যোগের তারিফ করে এগিয়ে এসেছেন এক কোম্পানির কর্ণধারও। মহম্মদ ফজল মুস্তাফা বলেন, 'ইতিমধ্যেই পশ্চিমবঙ্গের সীমানা ছাড়িয়ে ঝাড়খণ্ড, ওড়িশা এবং বিহারের পড়ুয়ারাও কুঁকছেন নামী শিক্ষকদের নোটসের জন্য। আরও অনেক রাজ্যে আমরা পৌঁছতে চাইছি।'

গাছ কাটা নিয়ে হলফনামা তলব

এই সময়: বনগাঁ-চাকদহ রোডের দু'পাশে গাছ কাটা নিয়ে রিপোর্ট তলব করল জাতীয় পরিবেশ আদালত। মঙ্গলবার এই মামলার শুনানি ছিল। মামলাকারীর আইনজীবী বৈদ্যুর্ঘ ঘোষাল বলেন, 'মোট ৩২ কিলোমিটার রাস্তা সম্প্রসারণে কয়েক হাজার গাছ কাটা হচ্ছে। এর আগেও রাস্তা সম্প্রসারণে এই এলাকায় গাছ কাটা হয়েছে। দশ বছর পেরোলেও তার পরিবর্তে গাছ লাগানোও হয়নি।' যদিও রাজ্যের তরফে অভিযোগের সারবস্তা নেই বলে দাবি করেন সরকারি কৌশলি। মামলাকারীর তরফে জানানো হয়, এই বিষয়ে প্রথমে কলকাতা হাইকোর্টে জনস্বার্থ মামলা করা হয়েছিল। হাইকোর্টের নির্দেশে মামলা এসেছে পরিবেশ আদালতে। সব শুনে পরিবেশ আদালত উত্তর ২৪ পরগনা ও নদিয়ার দুই জেলাশাসক, পুর্নসচিব, পরিবেশসচিব, বনসচিব, দূষণ নিয়ন্ত্রণ পর্ষদের সচিব এবং রাজ্য হাইওয়ে ডিভিশনের সচিবের কাছে হলফনামা চেয়েছে। রাস্তার জন্য কত গাছ কাটা হয়েছে? পরিবর্তে কত গাছ লাগানো হয়েছে? সরকারি পরিকল্পনা কী-১৬ সেক্টরের আগে জানাতে হবে তাঁদের।

সায়ন্তনকে বাধা

এই সময়, ঝড়দহ: শ্যামসুন্দর ফেরিঘাটে রবীন্দ্রনাথ ঠাকুরের মূর্তিতে মঙ্গলবার মালা দিতে এসে ঝড়দহের তৃণমূল কর্মীদের বিক্ষোভের মুখে পড়লেন বিজেপি নেতা সায়ন্তন বসু। ঘটনার জেরে ব্যাপক উত্তেজনা সৃষ্টি হয় এলাকায়। বিজেপি নেতাকে ঘিরে গো ব্যাক স্লোগান দেওয়ার পাশাপাশি, তাঁকে কালো পতাকাও দেখানো হয়।

এ দিন সকালে শ্যামসুন্দর ফেরিঘাটের কাছে রবীন্দ্রনাথের মূর্তিতে মালা দিতে আসেন সায়ন্তন। সঙ্গে ছিলেন কয়েকজন বিজেপি কর্মীও। খবর পেয়ে তড়িঘড়ি সেখানে হাজির হন ঝড়দহ শহর যুব তৃণমূল সভাপতি দিব্যেন্দু চৌধুরী-সহ কয়েকজন তৃণমূল কর্মী। তাঁদের হাতে দলীয় পতাকার পাশাপাশি কালো পতাকাও ছিল। রবীন্দ্রনাথের মূর্তিতে সায়ন্তন মালা দিতে গেলে বাধা দেওয়া হয়। দু'পক্ষ তকতর্কি, এমনকি ধাক্কাধাক্কিতেও জড়িয়ে পড়ে। সায়ন্তন মালা দিতে গেলে তাঁর হাত থেকে মালা ছিনিয়ে নিয়ে ছিড়ে ফেলা হয় বলে অভিযোগ। বাধ্য হয়ে ফিরে যান সায়ন্তন।

Sarbajit Das'

*Sun Dew Solutions is
blending aesthetics and
technology to drive visual
story telling over the web.*

August 2020

THE MAVERICK WHO GIVES TECHNOLOGICAL SOLUTIONS A STORYTELLING EDGE

Don't really know if the computer attracted the young Sarbajit or did he attract it. Whatever it is, he had learnt programming and web designing, when just in school. That he was also earning from it proves that he was good at it.

Sarbajit went on to acquire a bachelor's degree in Applied Electronics and Instrumentation Engineering from **Heritage Institute of Technology**, under WBUT (now rechristened as MAKAUT). Being quite clear on what he wanted to do, he took a leap of faith to form Sundew Solutions in 2007.

Brick by brick Sarbajit built a team of designers and software engineers who are passionate about their jobs. As he puts it, "We are a team of storytellers & technologists. Our passion lies in making complex things simple. Sundew constantly impro-

vises and experiments with bleeding-edge technology and breakthrough designs to simplify complex business challenges, yield results beyond the norm and create memorable customer experiences".

The Sundew team are pure naturals in blending technology with art and functionalities with design. Their creations have elicited the desired response and ensured expected outcomes. They are passionate about their craft and singularly focused on client expectations. The entire organization is obsessed with quality and transparency - in everything they do, with

everybody - clients and associates alike. After instilling such work ethics in a team, it is hardly surprising to hear Sarbajit say, "We have crafted a reputation for providing high quality design that cherishes the tiniest of details wherever it matters." This is the outcome of the process by which the organization was forged into a fighting fit unit. The company was completely bootstrapped by Sarbajit. Till their work spoke and orders started coming in, it was just their firm belief in their talent that kept the team afloat and resilient. The team is the best, blending technology with art and functionalities with design to craft bespoke digital solutions to make the web a whole new experience for Brands and users. "We solve the digital challenges of our customers. We combine their domain knowledge with our expertise in the digital landscape. Our offerings, over the years, have been award-winning designs and results-driven solutions that are based on research and insights that support the strategic growth of our customers. We specialize in comprehensive designs focused on aesthetics and visual storytelling. We are unique in our own ways, and we love to stay that way", Sarbajit further shares.

As Sundew helped brands discover what makes them unique, memorable, impactful, and profitable, they grew globally. With strategic collaborations and presences in Zug - Switzerland, New York City - USA, and London - United Kingdom, Sundew has 300+ clients across industry verticals spanning Aviation, Retail, Travel Retail, Insurance, Home Warranty, Fashion & Luxury, Healthcare, Heavy Industries, Academia, Media and Government.

At 36 years, Sarbajit is a rising star in the ecosystem of Entrepreneurship from Bengal and is an inspiration to the young generation of budding entrepreneurs. He is an active member in NASSCOM (East) and a board member in the IT Committee of The Bengal Chamber of Commerce and Industry (BCC&I). He is a mentor for start-ups at the BCC&I and Webel Tech Incubation Center in Kolkata. He also actively mentors start-ups from Eastern India and is also associated with initiatives of IIT KGP Entrepreneurship Cell and other Tech Colleges and institutes in and around Kolkata.

After all this, Sarbajit is a private person, preferring to spend time with his family and friends. Quite the leader, guiding and motivating the team to success and basking in their glory.

Dear Dr. Mousiki Kar,

I am writing this email as a follow-up to your proposal to establish an IEEE "EDS Center of Excellence" at the Heritage Institute of Technology, Kolkata (HITK).

Congratulations Dr. Kar, I want you to know that the EDS Forum has **approved** to fund your proposal for this initiative. The total amount of the grant is \$20,000 (U.S. dollars).

The establishment of this facility at the HITK aligns with the long-term strategy of EDS to encourage students to enter the fields of science and engineering in general and electrical engineering in particular with emphases on electron devices.

We are excited that the Heritage Institute of Technology (HITK) will serve as a role model for future EDS Centers of Excellence. We are in the process of arranging transfer of the funds to a local chapter office and you will be contacted when that has happened. Please expect 2-3 weeks for processing.

We have a request? Could HITK please provide us with several clear photos of the center: name of center, students working in center and other indicators of the space. These will be used as part of a presentation to the Voting members of EDS Forums on Dec. 2-3rd. Once the center has been fully funded, we also request an itemized list (budget) of how the grant money of \$20,000 was used to fund your facility. This will help us in allocating funds and providing grants for future centers.

Thank you Dr. Kar once again for your proposal and if you have any questions, please feel free to contact me.

Sincerely,

James Skowrenski

Dear James Skowrenski,

Thank you so much for approving the fund for establishment of an IEEE "EDS Center of Excellence" at the Heritage Institute of Technology, Kolkata (HITK). I am deeply indebted to the entire EDS forum for giving us this opportunity to serve the science and technology community. We shall strive to deliver our best.

I shall be sending over the photographs of the facility shortly.

Regards,

Dr. Mousiki Kar

This message is being sent on behalf of the EDS President, Ravi Todi

Dear Dr. Mousiki Kar:

Please be advised that IEEE and EDS have completed the approval process for the new initiative projects. Your project, EDS Project #54 - STEM Workshop for High School Students and Hands-on Training for Undergraduate Students at EDS Center of Excellence, has been approved for full funding of up to \$25,000.00.

Please let us know how you would like the funds sent along with the appropriate payment details by submitting the EDS Project Payment Form <https://ieeeforms.wufoo.com/forms/eds-project-payment-form/>

We ask that you provide a report on the status of your project. The interim and final reports can be sent using the links below.

Interim Report (submit after 6 months) <https://ieeeforms.wufoo.com/forms/q1jlnpmb0losdje/>

Final Report (submit after 12 months) <https://ieeeforms.wufoo.com/forms/q127kzvb0e3np2x/>

We will share the reports with the EDS Board of Governors.

Thank you.
