### Announcement !!!!

According to the count of votes, Tuesday is selected as the Final weekday for Python Hobby Group.

The first session of Python Hobby Group will be held on 12th September, 3 PM Onwards. Venue will be declared later.

The few students who will not be able to attend any class due to weekday problem, don't lose your hope. Weekly SIGKDD sessions, Workshop on Data Science with Python and all other tutorial workshops on Machine Learning, Social Network Analysis will be organized on other weekdays as well throughout this academic year.

For Python Hobby Group, Course logistics will be announced soon. Software that will be used throughout the course is Anaconda Python. Everyone install it on your computers / laptops before Tuesday.

## Heritage Institute of Technology ACM Student Chapter

...

2 July 2018 · 🌐

Hello,

On the 5th of July, a workshop will be conducted by our alumni Satyaki Sikdar (PhD student, University of Notre Dame) and Sourav Kumar Bose (M.Tech. batch of 2018, IIT Bombay).

Title: Workshop on End-to-end Machine Learning with Real-life Datasets

Contents: This talk will focus on the entire pipeline of a typical machine learning project. Working with a real-life dataset, it will be shown how even the basic concepts of machine learning can be used to extract useful information. The attendees would be walked through the entire spectrum of machine learning tasks, starting with data cleaning, feature extraction, classification, clustering, and model inference. A basic level of Python code comprehension is advised, although not essential.

You are cordially invited to attend this workshop. You should mail to Prof Partha Basuchowdhuri ([parthabasu.chowdhuri@heritageit.edu](mailto:parthabasu.chowdhuri@heritageit.edu)) with the same title regarding your interest to attend the workshop. As the number of seats is limited you are encouraged to mail as soon as possible.

Regards,

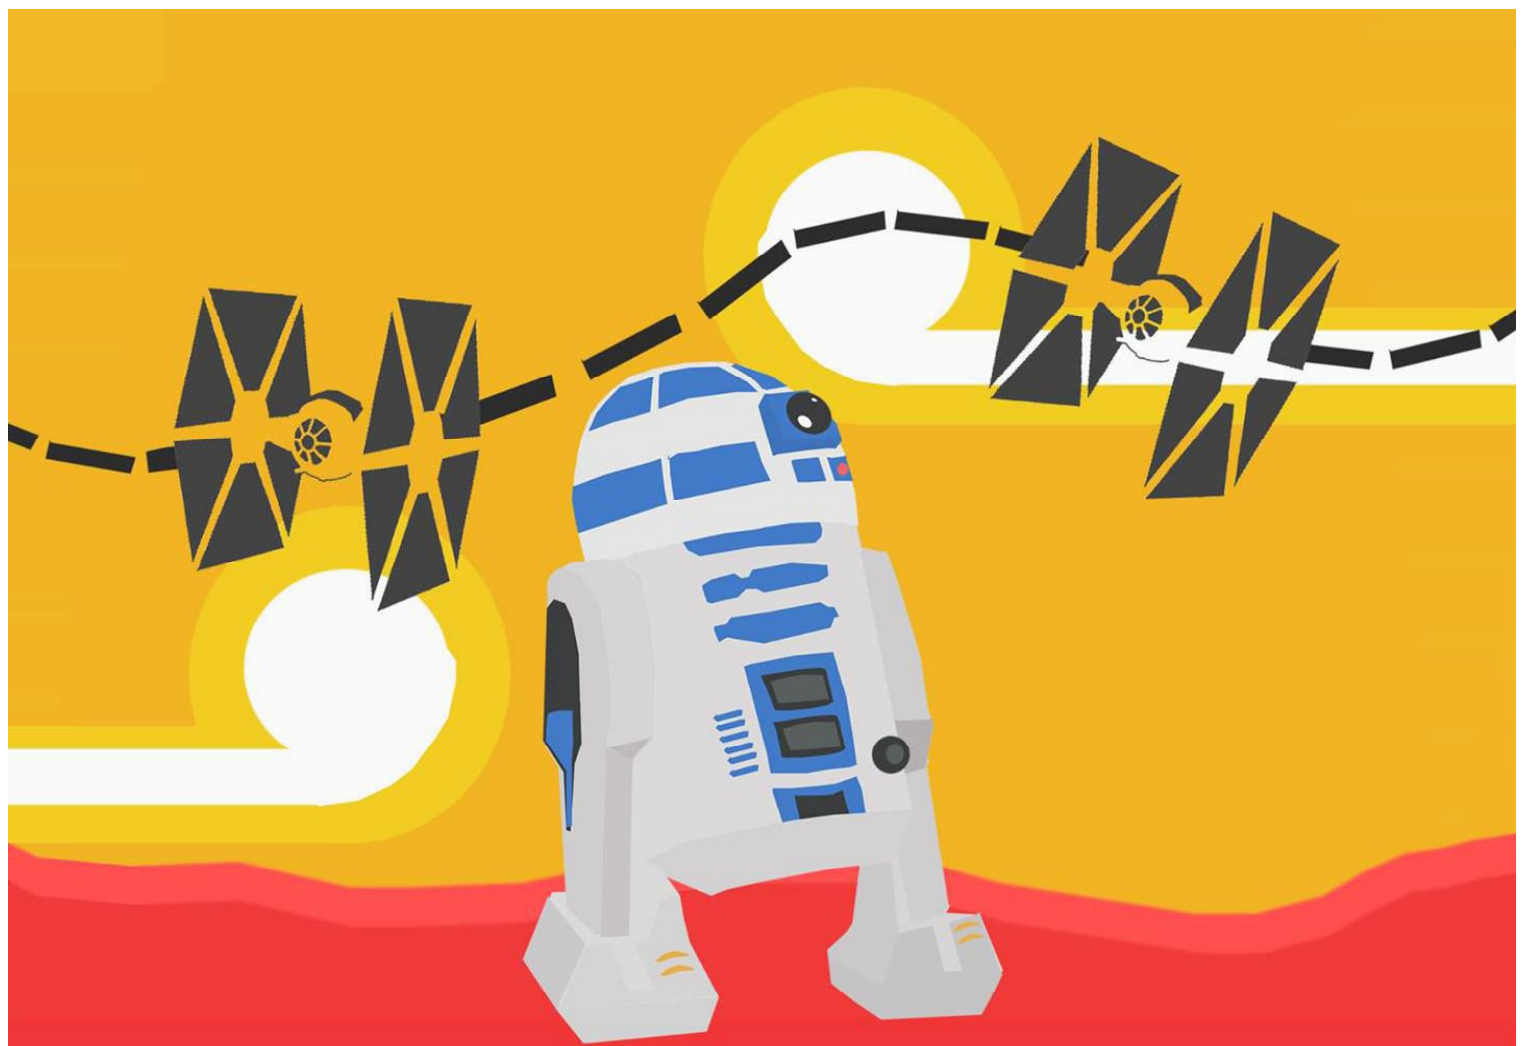

Manish Seal
